

APPENDIX 1. CODING SCHEME

## MEANS: WHO I AM, WHAT I KNOW, WHOM I KNOW

### HEURISTIC 1: MAKE AN INVENTORY OF YOUR READILY AVAILABLE MEANS

Cycle	Entrepreneur	Coding of researcher 1	Coding of researcher 2
1	M	<p>“We have not started with the means (as we were supposed to do) but already had a direction that we were planning to take.”</p> <p>“It is not difficult to come up with means that I possess, but it was more difficult to decide which were really relevant for the direction that we choose.”</p> <p>“Every time we or someone else came up with new ideas, there were always means lying around us that could help us with that. We constantly added that to the pool of resources and we will try to use it in the development of the venture concept.”</p> <p>“It is good to make an overview of his means that he committed and to add that to the pool of resources. This makes our venture concept stronger, also regarding the next stakeholder.”</p>	<p>“We have not started with the means (as we were supposed to do) but already had a direction that we were planning to take.”</p> <p>“It is not difficult to come up with means that I possess, but it was more difficult to decide which were really relevant for the direction that we choose.”</p> <p>“We constantly add new resources and insights to the pool of resources and will use it in the development of the venture concept.”</p> <p>“It is good to make an overview of his means that he committed and to add that to the pool of resources. This makes our venture concept stronger, also regarding the next stakeholder.”</p>
	W	<p>“After inventorying our means it was not really clear how to combine it with our initial idea/concept. We have the idea/concept already in mind for almost 2 years now. So looking at the theory of effectuation we started from another point of view.”</p> <p>“After the first meeting, we have new means; a greater network, access to experience and knowledge of our stakeholder.”</p> <p>“Starting with your means seems to have a positive effect on expanding your network and getting commitment.”</p>	<p>“After inventorying our means it was not really clear how to combine it with our initial idea/concept. We have the idea/concept already in mind for almost 2 years now. So looking at the theory of effectuation we started from another point of view.”</p> <p>“After the first meeting, we have new means; a greater network, access to experience and knowledge of our stakeholder.”</p>

2	M	<p>“From the meeting with the second stakeholder it appears that resources can quite easily be attained from outside. So, if an entrepreneur sees a gap but is not specialized in it, he/she can start a venture in this and just has to do a lot to get all the knowledge and contacts.”</p> <p>“Due to the commitment of the first stakeholder, we can add his means and resources (that he committed to us) to the pool of resources. The commitment of this stakeholder makes that we have one of the most important means of our venture concept available, the taste.”</p> <p>“We add everything that we have available to the pool of resources.”</p> <p>“At the moment, the stakeholder did pre-commit to us because he assured us that we can make use of his network and contacts.”</p>	<p>“Due to the commitment of the first stakeholder, we can add his means and resources (that he committed to us) to the pool of resources. The commitment of this stakeholder makes that we have one of the most important means of our venture concept available, the taste.”</p> <p>“At the moment, the stakeholder did pre-commit to us because he assured us that we can make use of his network and contacts.”</p>
	W	<p>“The commitment of the first stakeholder as cook makes that we have one of the most important means of our venture concept available, the taste. Moreover, practical knowledge and an extended network.”</p> <p>“Easy to keep the inventory of means up-to-date.”</p> <p>“More and more we realize that working with your means is valuable. Starting from your means results in a safe feeling, a more connected feeling with the people you meet. It feels like they would like to help you because they know you personally.”</p>	<p>“The commitment of the first stakeholder as cook makes that we have one of the most important means of our venture concept available, the taste. Moreover, practical knowledge and an extended network.”</p> <p>“Easy to keep the inventory of means up-to-date.”</p> <p>“More and more we realize that working with your means is valuable. Starting from your means result in a safe feeling, a more connected feeling with the people you meet, feels like they would like to help you because they know you personally.”</p>
3	M	“I think the network contacts of our stakeholders are very important means that are added to the pool of resources.”	“The network contacts of our stakeholders are very important means that are added to the pool of resources. The contacts of this stakeholder are also interesting for us.”
	W	“He expanded our means with his experience, advice and network.”	“He expanded our means with his experience, advice and network.”
<b>KAPPA CYCLE 1 T/M 3 = 0,888</b>			
4	M	<p>“The added means of the previous stakeholder are especially focusing on his knowledge about Slow Food and his contacts in this organization.”</p> <p>“We have also added the means of the second (pre)-committed stakeholder to the pool of resources and have also explained that to the current stakeholder (who is also stakeholder 1) in order to show him what we have done in the meantime.”</p>	<p>“The added means of the previous stakeholder are especially focusing on his knowledge about Slow Food and his contacts in this organization.”</p>

	W	<p>“Interesting to see is that your limited network in the beginning can expand so quickly via people you know.”</p> <p>“The means are mostly expanded in ‘Who I Know’ after three meetings with stakeholders.”</p>	<p>“Interesting to see is that your limited network in the beginning can expand so quickly via people you know.”</p> <p>“The means are mostly expanded in ‘Who I Know’ after three meetings with stakeholder.”</p>
5	M	<p>“During this meeting we gained knowledge and information about the type of packaging for our product. This is the profession of this stakeholder.”</p> <p>“I think that this action is important to take explicitly at the beginning of the process. The means that become available for us during the process are added to the mix at that particular moment. So, then it can be seen as an up-date of the means.”</p> <p>“We notice that we like to stay close to ourselves in order to ‘control’ the situation and our future. For us, this means that we like to stay close to our means in order to prevent losing our strength and distinctiveness.”</p>	<p>“During this meeting we gained knowledge and information about the type of packaging for our product. This is the profession of this stakeholder.”</p> <p>“I think that this action is important to take explicitly at the beginning of the process. However, during the process the means that become available for us are added to the mix at that particular moment. So, than it can be seen as an up-date of the means.”</p> <p>“We notice that we like to stay close to ourselves in order to ‘control’ the situation and our future. For us, this means that we like to stay close to our means in order to prevent losing our strength and distinctiveness.”</p>
	W	<p>“Especially our network (Who I know) is increased by our ICT stakeholder and by Slow Food organization Rijnzoet.”</p> <p>“This stakeholder informed us about the possibilities concerning packaging. This is exactly what we needed.”</p>	<p>“Especially our network (Who I know) is increased by our ICT stakeholder and by Slow Food organization Rijnzoet.”</p> <p>“This stakeholder informed us about the possibilities concerning packaging. This is exactly what we needed.”</p>
6	W	<p>“We have decided to stay close to our means (who I am, interests), because we want to give the whole concept a distinctive and innovative touch, and it feels not that good if we end up in a normal concept.”</p>	<p>“We have decided to stay close to our means (who I am, interests), because we want to give the whole concept a distinctive and innovative touch, and it feels not that good if we end up in a normal concept.”</p> <p>“This is a relation/contact of the second stakeholder, so we make use of the network of a pre-committed stakeholder (who I know).”</p>
<b>KAPPA CYCLE 4 T/M 6 = 0,896</b>			
7	M	<p>“Since the last cycle our current means are especially expanded with knowledge (what I know) that we gained during conversations with others. We have more insight in the various ‘imagined ends’ now.”</p>	<p>“Since the last cycle our current means are especially expanded with knowledge (what I know) that we gained during conversations with others. We have more insight in the various ‘imagined ends’ now.”</p>
	W	<p>“In the first cycles it was important to expend our network to come across new insights to develop the initial idea.”</p> <p>“In the last cycles it becomes more and more important to get some useful knowledge and access to expert experience. This in order to be able to make a decent decision about which option to choose.”</p>	<p>“In the first cycles it was important to expend our network to come across new insights to develop the initial idea.”</p> <p>“In the last cycles it becomes more and more important to get some useful knowledge and access to expert experience. This in order to be able to make a decent decision about which option to choose.”</p>

8	M	<p>“Both these stakeholder were not within our own network. So, even if the stakeholders are not within our own network, they are willing to help us with their knowledge, ideas and contacts. So, maybe it isn’t even necessary to start with a big network?”</p> <p>“This stakeholder has self-selected himself through our third stakeholder.”</p> <p>“Each cycle we go through, our means (especially ‘What I know’ and ‘Who I know’) are expanded. What I notice is that ‘Who I am’ is expanded with the experience of others. So, they teach us how they do it, or how they should do it, and we add that to our experiences.”</p>	<p>“Both these stakeholders were not within our own network. So, even if the stakeholders are not within our own network, they are willing to help us with their knowledge, ideas and contacts. So, maybe it isn’t even necessary to start with a big network?”</p> <p>“This stakeholder has self-selected himself through our third stakeholder.” (1)</p> <p>“Each cycle we go through, our means (especially ‘What I know’ and ‘Who I know’) are expanded. What I notice is that ‘Who I am’ is expanded with the experience of others. So, they teach us how they do it, or how they should do it, and we add that to our experiences.”</p>
	W	<p>“This contact is emerged after our meeting with the third stakeholder, an organization that we have approached outside our means and that committed their network after the meeting”.</p> <p>“This stakeholder will inform us about interesting topics, so our means (what I know) will expand.”</p>	<p>“This contact is emerged after our meeting with the third stakeholder, an organization that we have approached outside our means and that committed their network after the meeting.”</p> <p>“This stakeholder will inform us about interesting topics, so our means (what I know) will expand.”</p>
9	M	<p>“The ‘means’ that we are going to use for this purpose is my brother who is a bank employee. He is willing to make an appointment with a senior colleague of him. This is not the usual course of action within a bank, so we made use of our network in order to get the desired feedback.”</p> <p>“Another important thing that he gave us was ‘confidential’ branch figures. The stakeholder told us that he would not give this information to other clients, but because we are family of his colleague, he is willing to give us the confidential information. It was really good to notice that we could make such good use of our network and that people ‘trust’ you through their network contacts. “</p> <p>“As a result of the meeting, we got all the advice and tips that we needed before we can request a loan of the bank. These are added to ‘what I know’.”</p>	<p>“The ‘means’ that we are going to use for this purpose is my brother who is a bank employee. He is willing to make an appointment with a senior colleague of him. This is not the usual course of action within a bank, so we made use of our network in order to get the desired feedback”.</p>
	W	<p>“This stakeholder, an employee of the bank, is a colleague of our family, so it is a lead out of our network” (who I know).</p>	<p>“This stakeholder, an employee of the bank, is a colleague of our family, so it is a lead out of our network” (who I know).</p> <p>“We want to become aware of the policies and mind set of the bank at the moment, since we have a recession/ financial crisis (what I know).”</p>
<b>KAPPA CYCLE 7 T/M 9 = 0,864</b>			

10	M	<p>“We can see this committed stakeholder as a supplier of the products that we need. He provides us of things that we don’t have ourselves, and that increases our means.”</p> <p>“In the final phase of the effectual process, we were more looking for stakeholders who possess means that we don’t have, while we do need them for our venture goals. This didn’t change our venture idea.”</p> <p>“His wife was also present during the meeting and she was really interested in us. She is an entrepreneur herself so she gave us a lot of tips and tricks. Most of all, she stimulated us to go for it. To work hard in order to make it a success. And to survive the first three years”.</p> <p>“We add all the knowledge in ‘what I know’. Moreover, we have some new network contacts after this ‘contingency’. We might want to make use of these network contacts in the future.”</p> <p>“During the meeting with the previous stakeholder we gained some extra knowledge about financial aspects (what I know). Furthermore, the means have not really changed.”</p>	<p>“We can see this committed stakeholder as a supplier of the products that we need. He provides us of things that we don’t have ourselves, and that increases our means.”</p> <p>“In the final phase of the effectual process, we were more looking for stakeholders who possess means that we don’t have, while we do need them for our venture goals. This didn’t change our venture idea.”</p> <p>“His wife was also present during the meeting and she was really interested in us. She is an entrepreneur herself so she gave us a lot of tips and tricks. Most of all, she stimulated us to go for it. To work hard in order to make it a success. And to survive the first three years”.</p> <p>“During the meeting with this stakeholder, he told us that we could meet his father who is a financial advisor. His father was willing to help us with the financial issues of the venture”.</p> <p>“In short he is a supplier of products, taste, expertise and knowledge. These are all means that we don’t have but do need for our venture.”</p>
	W	<p>“Means are expended by the father of the stakeholder who is willing to help us with the financial paragraph.”</p>	<p>“Means are expended by the father of the stakeholder who is willing to help us with the financial paragraph”.</p> <p>“This stakeholder gives us advice about practical things, which is interesting in the goal to reduce the needed cash”.</p>
11	M	<p>“The means that we are going to make use of during this cycle belong to our network (who I know); my father and brother who have an own company in agriculture.”</p> <p>“These persons have lots of knowledge and experience about entrepreneurship and financial constructions, so we like to learn of them.”</p> <p>“I think this is a creative way of generating cash and investment because we make use of an existing relationship within our close network.”</p> <p>“The stakeholders are both experienced entrepreneurs. I really notice that they like to</p>	<p>“The means that we are going to make use of during this cycle belong to our network (who I know); my father and brother who have an own company in agriculture.”</p> <p>These persons have lots of knowledge and experience about entrepreneurship and financial constructions, so we like to learn of them”.</p> <p>“The stakeholders are both experienced entrepreneurs. I really notice that they like to</p>

		teach us about their entrepreneurial expertise. They want us to learn about entrepreneurship in practice; about the tradeoffs that you have to make, about making decisions, working hard in order to be successful, and about the financial issues that it brings. For me it feels that they like to be a kind of ‘coach’ in order to help us to make the right decisions and to make the venture a success. So, to prevent us to make decisions with negative consequences”.	teach us about their entrepreneurial expertise. They want us to learn about entrepreneurship in practice; about the tradeoffs that you have to make, about making decisions, working hard in order to be successful, and about the financial issues that it brings. For me it feels that they like to be a kind of ‘coach’ in order to help us to make the right decisions and to make the venture a success. So, to prevent us to make decisions with negative consequences”.
	W	“This stakeholder brought resources we really needed for continuing the project.”	“This stakeholder brought resources we really needed for continuing the project.”
12	M	<p>“During the meeting with this stakeholder, we noticed that this person knows a lot of other persons who can help us with small aspects of the Food Truck.”</p> <p>“We don’t have the means ourselves to rebuild the truck, and we don’t have someone in our network who is able to do the complete rebuilding project. So, we have to find an external party. However, we tried to find this party through our own network contacts.”</p> <p>“His means are very interesting for us. He has a lot of practical knowledge, expertise, and experience and he has a huge network of which we can make use.”</p>	<p>“We don’t have the means ourselves to rebuild the truck, and we don’t have someone in our network who is able to do the complete rebuilding project. So, we have to find an external party. However, we tried to find this party through our own network contacts”.</p> <p>“His means are very interesting for us. He has a lot of practical knowledge, expertise, and experience and he has a huge network of which we can make use.”</p>
	W	<p>“Another remarkable thing was his network of people who can help him (us) with building the truck.”</p> <p>“By discussing with people we know we became aware of what we have to take into account when we execute this course of action.”</p> <p>“We will firstly look in our network since this is a very effective way of bringing in the needed resources.”</p>	<p>“Another remarkable thing was his network of people who can help him (us) with building the truck”.</p> <p>“By discussing with people we know we became aware of what we have to take into account when we execute this course of action.”</p> <p>“We will firstly look in our network since this is a very effective way of bringing in the needed resources”.</p> <p>“After some research within our network, we finally found this potential builder outside our network.”</p>
<b>KAPPA CYCLE 10 T/M 12 = 0,746</b>			
13	M	<p>“Making use of your own network works well; they are willing to help you with their means and resources in order to make sure that we start off well”.</p> <p>“A nephew of my partner has his own company in cool techniques. He has knowledge and contacts that we like to get access to.”</p>	<p>“Making use of your own network works well; they are willing to help you with their means and resources in order to make sure that we start off well”.</p>

	W	<p>“We found this person in our own network. Hopefully he can advice us about practical aspects of the venture concept.”</p> <p>“He was really willing to commit his knowledge and network and was interested in the concept.”</p> <p>“He shared his network of people who can probably help us for getting the needed resources for less money.”</p> <p>“This extra course of action that we will investigate for the second time is a course of action which is also close to our means.”</p> <p>“This extra course of action is interesting because we have special knowledge within our close network contacts about the specific environment/situation.”</p> <p>“The new means of this stakeholder are incorporated in our pool of resources.”</p>	<p>“We found this person in our own network. Hopefully he can advice us about practical aspects of the venture concept.”</p> <p>“He was really willing to commit his knowledge and network and was interested in the concept.”</p> <p>“He shared his network of people who can probably help us for getting the needed resources for less money”.</p> <p>“This extra course of action that we will investigate for the second time is a course of action which is also close to our means.”</p> <p>“This extra course of action is interesting because we have special knowledge within our close network contacts about the specific environment/situation.”</p>
14	M	“We started with our means, especially ‘who I am’. What do I like to do and what am I interested in. It feels good to stay close to yourself and your own means. I think it reduces the dependency on others, and it is good for you self-esteem that you can do it. It makes that we keep control over de situation and can distinguish ourselves from other concepts.”	“We started with our means, especially ‘who I am’. What do I like to do and what am I interested in. It feels good to stay close to yourself and your own means. I think it reduces the dependency on others, and it is good for you self-esteem that you can do it. It makes that we keep control over de situation and can distinguish ourselves from other concepts.”
	W	“The experience and knowledge of our family is added to our means (what I know) and could be very valuable if we start another course of action.”	“The experience and knowledge of our family is added to our means (what I know) and could be very valuable if we start another course of action.”
15	M	“What is important in this cycle is that we don’t have brand awareness and don’t have many network contacts through which we can acquire enough requests during the first period of business. In order to build this, we believe in cooperation with established catering suppliers who hire us and the Food Truck. So, we can see them as pre-committed customer. So, if we can commit those customers we expand our means and work on brand and service awareness.”	“What is important in this cycle is that we don’t have brand awareness and don’t have many network contacts through which we can acquire enough requests during the first period of business. If we can commit those customers we expand our means and work on brand and service awareness.”
	W	-	-
<b>KAPPA CYCLE 13 T/M 15 = 0,896</b>			
<b>KAPPA HEURISTIC 1 = 0,858</b>			

HEURISTIC 2: CONTINUOUSLY LOOK AROUND FOR SLACK RESOURCES			
Cycle	Entrepreneur	Coding of researcher 1	Coding of researcher 2
1	M	<p>“I think it was difficult to come up with many slack resources because I was really looking for them within the venture concept that I already had.”</p> <p>“Maybe it is the case with slack resources that you have to come across them, just as with contingencies.”</p> <p>“Some slack resources you see don’t fit in the imagined end.”</p> <p>“Another way to look at slack resources might be as accidental ‘aha’ moments in which the entrepreneur discovers slack resources for the current venture concept or maybe even slack resources that could be the starting point for a new venture concept.”</p>	<p>“I think it was difficult to come up with many slack resources because I was really looking for them within the venture concept that I already had.”</p> <p>“Some slack resources you see don’t fit in the imagined end.”</p> <p>“Another way to look at slack resources might be as accidental ‘aha’ moments in which the entrepreneur discovers slack resources for the current venture concept or maybe even slack resources that could be the starting point for a new venture concept.”</p>
	W	<p>“This action is not easy to take. However, it is a valuable action because it reduces cash needs if you find creative slack resources.”</p> <p>“Looking for slack resources from behind my desk is not really working, I noticed.”</p>	<p>“This action is not easy to take. However, it is a valuable action because it reduces cash needs if you find creative slack resources.”</p> <p>“Looking for slack resources from behind my desk is not really working, I noticed.”</p>
	M	<p>Stakeholder two: “<i>You can see slack resources when you mix-up with an industry or people. Only then, you can see ‘gaps’ and slack resources.</i>”</p> <p>“At the moment you have an idea, you can see whether you can collect your resources in a creative and cheap way, so you can find slack resources. If you do not have an idea yet, then you can engage in networks and just look around for contingencies, you might discover slack resources. These are then the basis of your venture idea. So, this might be two different ways to look at slack resources.”</p> <p>“During the meeting the stakeholder inspired us to think of subsidies as slack resources.”</p>	<p>Stakeholder two: “<i>You can see slack resources when you mix-up with an industry or people. Only then, you can see ‘gaps’ and slack resources.</i>”</p> <p>“At the moment you have an idea, you can see whether you can collect your resources in a creative and cheap way, so you can find slack resources. If you do not have an idea yet, then you can engage in networks and just look around for contingencies, you might discover slack resources. These are then the basis of your venture idea. So, this might be two different ways to look at slack resources.”</p> <p>“During the meeting the stakeholder inspired us to think of subsidies as slack resources.”</p>
	W	<p>“Slack resources in the sense of subsidies that we can get from the local and province government for start up our company.”</p>	<p>“Slack resources in the sense of subsidies that we can get from the local and province government for start up our company.”</p>
3	M	-	-
	W	<p>“Coming up with useful slack resources is still not easy. However, we are still looking for slack resources.”</p>	<p>“Coming up with useful slack resources is still not easy. However, we are still looking for slack resources.”</p>
KAPPA CYCLE 1 T/M 3 = 0.950			

4	M	“During the first couple of interactions with potential stakeholders we saw some interesting slack resources, however it was hard to link and incorporate them in our ideas.”	“During the first couple of interactions with potential stakeholders we saw some interesting slack resources, however it was hard to link and incorporate them in our ideas.”
	W	“We saw on television that there are so many office spaces not in use, everybody can hire them for less than 300 euro a month. We can use them as distribution points.”	“We saw on television that there are so many office spaces not in use, everybody can hire them for less than 300 euro a month. We can use them as distribution points.”  “Hard to come up with new ones.”
5	M	“We don’t see different slack resources than before at this moment.”  “I think it is not necessary to think about slack resources every cycle. Unless the stakeholders that you meet have certain slack resources that are interesting for the venture concept.”	“We don’t see different slack resources than before at this moment.”  “I think it is not necessary to think about slack resources every cycle. Unless the stakeholders that you meet have certain slack resources that are interesting for the venture concept.”
	W	“We haven’t found any other slack resources till now.”	“We haven’t found any others slack resource till now.”
6	M	“The locker system itself is a slack resource that we can use as distribution channel for our products. The occupy of the lockers is never 100%, so there are always lockers free that we might use for our venture.”  “The stakeholder agreed that making use of existing things in order to reduce the things that we need is a very good idea. He was surprised by this insight that we might be able to use existing or slack resources.”	“The locker system itself is a slack resource that we can use as distribution channel for our products. The occupy of the lockers is never 100%, so there are always lockers free that we might use for our venture.”
	W	“We added to the discussion the slack resource of the lockers that aren’t in use during the day at big flex offices. We asked the stakeholder if it was possible to use them and the answer was yes. So including this slack resource can result in a decrease in needed cash.”	“Including this slack resource can result in a decrease in needed cash. We don’t have to invest in lockers ourselves and also the software of the lockers is already available.”  Stakeholder 6: “ <i>Make use of slack resources and try to make use of existing channels or products instead of trying to develop these yourself.</i> ”
<b>KAPPA CYCLE 4 T/M 6 = 0,700</b>			
7	M	-	“These are still the same.”
	W	“From the beginning we have seen slack resources in the way of unused kitchens, or to use resources in their downtime. One of our stakeholders came with another slack resource, to use existing lockers as distribution channel, we see that option also as a slack resource.”	“From the beginning we have seen slack resources in the way of unused kitchens, or to use resources in their downtime. One of our stakeholders came with another slack resource, to use existing lockers as distribution channel, we see that option also as a slack resource.”
8	M	“We see no new slack resources.”	“We see no new slack resources.”
	W	“We see no new slack resources for this moment.”	“We see no new slack resources for this moment.”
9	M	-	-

	W	-	-
<b>KAPPA CYCLE 7 T/M 9= 0,856</b>			
10	M	-	"These have not changed."
	W	"We are going to use the kitchen facilities of the restaurant and the cook's time in their spare time."	"Same."
11	M	"A slack resource that I see is the trust relationship that my father and brother have with the bank. My family already has a family business for a long time. They have already proven to do good business, also financially."	"A slack resource that I see is the trust relationship that my father and brother have with the bank. My family already has a family business for a long time. They have already proven to do good business, also financially."
	W	-	-
12	M	"The camper builders that we talked to all say that the winter time is a more quiet time for them because people are not planning to travel by camper since it is not the season. We see this as a slack resource that we can make use of."	"The camper builders that we talked to all say that the winter time is a more quiet time for them because people are not planning to travel by camper since it is not the season. We see this as a slack resource that we can make use of."
	W	"Since the truck isn't that big we have decided to look for leftovers at suppliers."	"The only way to make use of slack resources was to make an indication what do we need for to build/ re-build the truck and search for those products. Since the truck isn't that big we have decided to look for leftovers at suppliers."
<b>KAPPA CYCLE 10 T/M 12 = 0,665</b>			
13	M	"This stakeholder has many contacts and insights in the catering branch. Since he knows a lot of people, and visits many companies, he might also have some insight in second hand equipment that is available. Or products that are not used but have some little damage or showroom models. These are options to reduce the price that we pay for the products, without doing concessions regarding the quality of the products."	"This stakeholder has many contacts and insights in the catering branch. Since he knows a lot of people, and visits many companies, he might also have some insight in second hand equipment that is available. Or products that are not used but have some little damage or showroom models. These are options to reduce the price that we pay for the products, without doing concessions regarding the quality of the products".
	W	"He knows a lot of people who are in the second hand business concerning kitchen equipment which can be very interesting for us because he is able to fix them."	"He has also some second hand equipment which we can buy for a very interesting price. He knows a lot of people who are in the second hand business concerning equipment which can be very interesting for us because he is able to fix them".
14	M	-	-
	W	"For this extra course of action we don't see different or new slack resources. Although, if we decide to exploit both courses of action we can use the resources of both for the same purpose." ## GOALS: WHAT CAN I DO?

### HEURISTIC 3: CONSIDER WHAT YOU COULD POSSIBLE DO WITH THE AVAILABLE MEANS AND RESOURCES AND IMAGINE POSSIBLE COURSES OF ACTION (IMAGINED ENDS)

Cycle	Entrepreneur	Coding of researcher 1	Coding of researcher 2
1	M	<p>“My preferences weighted very high in thinking about imagined ends. This restricts me to be totally open-minded about all imagined ends that I could possibly do, because I immediately evaluate these imagined ends on my preferences.”</p> <p>“Initially, I already had some plans for a venture concept so I was constantly moving towards and thinking about this course of action which made it difficult for me to come up with totally different courses of action. However, within the venture concept I was still open towards how we will fill in everything, like distribution.”</p> <p>“I notice that it is difficult to come up with a large variation of courses of action because I am restricted due to the initial venture concept. The courses of action that we came up with were almost all possible to host/group in one venture or were variations on aspects like marketing tools and distribution of the products.”</p>	<p>“Another remark is that my preferences weight very high in thinking about imagined ends. This restricts me to be totally open-minded about all imagined ends that I could possibly do.”</p> <p>“I already had some plans for a venture concept so I am constantly moving towards and thinking about this course of action which makes it difficult for me to come up with different courses of action.”</p> <p>“I think that stakeholders might also come up with such ideas, and then it is good to show that you also thought about more than one possibility.”</p>
	W	<p>“If you want to execute this action, every kind of service you know, you can describe as imagined end if you combine it with our means. It is hard to set a kind of limit.”</p> <p>“To be honest, you already have your favorites.”</p> <p>“We already have an idea for two years now, so to come up with other imagined ends is more for having an alternative when stakeholders don’t like the idea and not giving commitment.”</p>	<p>“Every kind of service you know, you can describe as imagined end if you combine it with our means. It is hard to set a kind of limit.”</p> <p>“In the beginning everything is still possible and an option. The longer you are busy with this project, the more insights, and the more imagined ends. However, to be honest, you already have your favorites.”</p> <p>“We already have an idea for two years now, so to come up with other imagined ends is more for having an alternative when stakeholders don’t like the idea and not giving commitment.”</p>
2	M	-	-
	W	“Speaking with another stakeholder results apparently in new insights and ideas, so in new imagined ends.”	“Speaking with another stakeholder results apparently in new insights and ideas, so in new imagined ends.”
3	M	-	-
	W	“Since we have commitment of the first stakeholder the possible courses of action are increased.”	

		“It is more and more difficult to choose which options would be the best for us, since we speak with more and more people.”	“It is more and more difficult to choose which options would be the best for us, since we speak with more and more people.”
<b>KAPPA CYCLE 1 T/M 3 = 0,819</b>			
4	M	“Everybody is good in something and has ideas about a certain aspect of the venture concept.” By combining everything, a possible course of action develops.”	“Everybody is good in something and has ideas about a certain aspect of the venture concept.”
	W	<p>“It is important to be open towards new insights, however you also have to make up your mind during the decision making, is this what we want? Is this close to our means (who I am)?”</p> <p>“I feel that every time I speak with a stakeholder, this time with the first one for the second time, that he has influence on our decision making which imagined ends to consider. Probably do you have so much trust in a professional that everything he says, you think it is true.”</p>	<p>“It is important to be open towards new insights, however you also have to make up your mind during the decision making, is this what we want? Is this close to our means (who I am)?”</p> <p>“I feel that every time I speak with a stakeholder, this time with the first one for the second time, that he has influence on our decision making which imagined ends to consider. Probably do you have so much trust in a professional that everything he says, you think it is true.”</p>
5	M	<p>“For now, we have to make the product that we already agreed on more concrete.”</p> <p>“We are sure which product we are going to use, however, we are still thinking about the venture concept that fits best with this product.”</p>	<p>“We are sure which product we are going to use, however, we are still thinking about the venture concept that fits best with this product.”</p>
	W	<p>“Product is clear now, we have to decide which distribution channel we are going to use.”</p> <p>“We first want to make a good overview of all the courses of action and their potential and opportunities to reduce the cash needs of each action.”</p>	<p>“Product is clear now, we have to decide which distribution channel we are going to use”</p> <p>“We first want to make a good overview of all the courses of action and their potential and opportunities to reduce the cash needs of each action.”</p>
6	M	<p>“We like to explore the possibilities concerning distribution of these meals. There are various options.”</p> <p>“At this moment we want to explore the possible courses of action that the pre-committed ICT stakeholder came up with during the meeting with him (cycle 2).”</p> <p>Stakeholder 6: <i>“Start small with what you can do already. Just buy a ... and sell the products next to busy roads. Just try something and take action.” I think that this made us open our eyes that, indeed, we just have to take action and start. We have many ideas, but by starting small we can see what works and what doesn’t.</i>”</p>	<p>“We like to explore the possibilities concerning distribution of these meals. There are various options.”</p> <p>Stakeholder 6: <i>“Start small with what you can do already. Just buy a ... and sell the products next to busy roads. Just try something and take action.” I think that this made us open our eyes that, indeed, we just have to take action and start. We have many ideas, but by starting small we can see what works and what doesn’t.</i>”</p>
	W	<p>“Possible courses of action for this moment are related to the distribution channels.”</p> <p>“He (Stakeholder) advised us not to wait too long for the best idea, just start with a small business was better. You will learn much more in that setting than in a formal</p>	<p>“Product and its packaging are almost chosen. Possible courses of action for this moment are related to the distribution channels.”</p> <p>“He (Stakeholder) advised us not to wait too long for the best idea, just start with a small business was better. You will learn much more in that setting than in a formal</p>

		company environment as an employee.”	company environment as an employee.”
<b>KAPPA CYCLE 4 T/M 6 = 0,905</b>			
7	M	“An issue at the moment is that we really like to start. But how are we going to distribute the products? We have three options that we are thinking about. The most interesting course of action was the mobile distribution, mainly because it requires little investment and we thought we could realize it quite quickly. However, we found out that this option is not that easy and that chances are small for us. This was a pity, but we still have other options to explore.”	“We have three options that we are thinking about. The most interesting course of action was the mobile distribution, mainly because it requires little investment and we thought we could realize it quite quickly. However, we found out that this option is not that easy and that chances are small for us. This was a pity, but we still have other options to explore.”
	W	“We have spoken with several stakeholders, friends and family, we came to the conclusion that we have three options to sell our product(s).”	“We have spoken with several stakeholders, friends and family, we came to the conclusion that we have three options to sell our product(s).”
8	M	“During the previous cycles and additional meetings we came to the conclusion that mobile distribution and the locker system are not ideal considering the experience that we want to express and the ‘conditions’ it requires. Therefore, our preference is a store in which we can show everybody our food experience.”	“During the previous cycles and additional meetings we came to the conclusion that mobile distribution and the locker system are not ideal considering the experience that we want to express and the ‘conditions’ it requires. Therefore, our preference is a store in which we can show everybody our food experience.”
	W	“The three possible courses of action (lockers, store and mobile) are evaluated during the last cycle and the store option is the most preferred one after that. This since the lockers are too complicated to realize and the mobile service is unfeasible.”	“The three possible courses of action (lockers, store and mobile) are evaluated during the last cycle and the store option is the most preferred one after that. This since the lockers are too complicated to realize and the mobile service is unfeasible.”
9	M	<p>“There are still more courses of action that we are interested in. However, we have decided to go for the Food Truck in the first place and to keep the option of other courses of action open for the future.”</p> <p>“We are very flexible and we can easily anticipate on the developments in the food branch and the desires of (potential) customers. This makes the business idea versatile and flexible, which I really prefer.”</p>	<p>“There are still more courses of action that we are interested in. However, we have decided to go for the Food Truck in the first place and to keep the option of other courses of action open for the future.</p> <p>“We are very flexible and we can easily anticipate on the developments in the food branch and the desires of (potential) customers. This makes the business idea versatile and flexible, which I really prefer.”</p> <p>“We were flexible to learn of him regarding financial aspects, but he didn’t contribute to the concept development (which was also not the goal). He really valued that this is our idea, so he wanted to help us with some attention points that we have to keep in mind.”</p>
	W	-	“The three courses of action as mentioned in previous diaries are investigated and we thought that having a store was the best option. However, it was not possible anymore to realize this option. So we focused again on the mobile option; the food truck.”
<b>KAPPA CYCLE 7 T/M 9 = 0,854</b>			
10	M	<p>“As we move further in the effectual process, the goal becomes more concrete and clear. Every stakeholder had influence on this and that resulted in the effectual business plan that we have at the moment.”</p> <p>“During this process, there were no new constraints on our goals and objectives. It</p>	<p>“As we move further in the effectual process, the goal becomes more concrete and clear. It</p>

		really appears that the venture concept is concrete now and that we know what we want after talking to so many people.”  “The goals are quite formed by now.”	really appears that the venture concept is concrete now and that we know what we want after talking to so many people.”
	W	“Since the broker has called us, we have incorporated this contingency again in our goals; investigate the option to start a store”.	“Since the broker has called us, we have incorporated this contingency again in our goals; investigate the option to start a store”.
11	M	-	“This has not changed.”
	W	“We can combine our resources in order to create a very unique service which has a huge competitor advantage”	“We can combine our resources in order to create a very unique service which has a huge competitor advantage”
12	M	“Although our broader concept is clear now, we are still flexible concerning the specific interpretation. This is dependable on all the information and ideas that we keep gathering. We are not the only ones with good ideas, so we are also flexible towards the good ideas of others to give our venture concept a specific implementation.”  “There were no constraints on the goals and objectives. This stakeholder does not focus on the venture concept, but on the practical aspects of the rebuilding of the truck.”	“Although our broader concept is clear now, we are still flexible concerning the specific interpretation. This is dependable on all the information and ideas that we keep gathering. We are not the only ones with good ideas, so we are also flexible towards the good ideas of others to give our venture concept a specific implementation.”
	W	“Course of action is chosen and we stick to that decision.”  “We are more and more convinced that the chosen idea is the best first option to execute. Therefore, conversations with new people don’t have the same effect on new possible courses of action.”	“Course of action is chosen and we stick to that decision”.  “We are more and more convinced that the chosen idea is the best first option to execute. Therefore, conversations with new people don’t have the same effect on new possible courses of action. Neither professionals will influence you that much anymore.”  “This stakeholder pushed us to start already with making money. He would like to see that we already sell our products in the start up phase.”
<b>KAPPA CYCLE 10 T/M 12 = 0,772</b>			
13	M	“I notice that once I made the choice for the Food Truck, I go for it and I am not prepared to chance the whole idea. I am open for ideas about possible actions that we can execute with the Food Truck.” “This course of action will be executed in such a way that we are flexible in the activities that we can possibly perform with the food truck.”	“I notice that once I made the choice for the Food Truck, I go for it and I am not prepared to chance the whole idea. I am open for ideas about possible actions that we can execute with the Food Truck.”
	W	-	-

14	M	<p>“Although we are concretely working on another imagined end, we are still interested in this (2<sup>nd</sup>) course of action due to the potential it has and the combined resources we can use for both imagined ends. We don’t want to throw away a chance of success, so we are still interested in this course of action. Therefore, we are open and flexible towards this option and we like to investigate whether we can exploit this opportunity that we see.”</p> <p>“For this moment, we like to explore one of our imagined ends which has most potential according us and our stakeholders. This is a course of action that we are thinking about for a long time now. At first site it seemed too expensive and difficult to exploit this opportunity, however, we continuously get new input and information about this course of action. This makes that we are still curious about the options and are open and flexible towards this course of action. Although we already have decided to exploit another potential imagined end.”</p> <p>“We notice that the possible courses of action in the beginning of the whole process are much more than now. If we move through the process and get more information, insights, advice and network contacts, the imagined ends become more concrete. The amount of courses of action that we have in mind reduces and they become more constricted due to the increased insight in what we can do with our (increased) means and what we want and feel comfortable with doing.”</p>	<p>“Although we are concretely working on another imagined end, we are still interested in this (2<sup>nd</sup>) course of action due to the potential it has and the combined resources we can use for both imagined ends. **KAPPA HEURISTIC 3 = 0,856**

HEURISTIC 4: DECIDE HOW MUCH YOU REALLY NEED TO START THESE COURES OF ACTION			
Cycle	Entrepreneur	Coding of researcher 1	Coding of researcher 2
1	M	<p>"I think it is difficult to get started with evaluating the imagined ends on affordable loss. I think this is because the venture concept is not very concrete yet, which makes it hard to imagine or put on paper what concrete costs we have to make for each of them."</p> <p>"We have not evaluated each imagined end on the basis of affordable loss."</p> <p>"Looking at the list with resources we really need, I think that there are some people in our network who can help us with the resources we need. For others, we have to get creative."</p>	<p>"I think it is difficult to get started with evaluating the imagined ends on affordable loss. I think this is because the venture concept is not very concrete yet, which makes it hard to imagine or put on paper what concrete costs we have to make for each of them."</p> <p>"We have not evaluated each imagined end on the basis of affordable loss."</p> <p>"I think that there are some people in our network who can help us with the resources we need. For other resources, we have to get creative."</p> <p>"I will look at the resources we really need, and that are most important for the venture concept."</p>
	W	<p>"One thing is sure, we as starters don't have a lot of money to invest and to lose. We have to be creative and are dependent on others."</p>	<p>"Stakeholder also believes that this action is very important for increasing the chance of survival during the venture creation."</p>
2	M	<p>"The stakeholder was positive about the idea that entrepreneurs really have to find out what they actually need for starting the venture and that this investment should be kept low by being creative about the investment types and by using the resources and means of others. For instance, by using other's networks, we do not have to invest much time and money in order to get the same reach as they already have. So, the stakeholder advised us to connect to other entrepreneurs/ventures."</p> <p>"The stakeholder agreed that novice entrepreneurs, but actually every entrepreneur, have to be very critical about the resources he or she really needs. This in order to be independent of a bank. One big solution for this action is to make use of the network of others. Use existing distribution channels and not trying to realize a great channel yourself which is very expansive and hard to realize."</p> <p>"So, if we can get creative and can convince people to help us, it might be possible to start this imagined end. However, if we cannot find such commitment we have to change the current course of action and have to focus on ideas that require lower investments."</p>	<p>"The stakeholder was positive about our idea that entrepreneurs really have to find out what they actually need for starting the venture and that this investment should be kept low by being creative about the investment types and by using the resources and means of others."</p> <p>"The stakeholder agreed that novice entrepreneurs, but actually every entrepreneur, have to be very critical about the resources he or she really needs. 	W	-	"In our eyes, having great ICT applications is very important. However, it will be one of the biggest investments of our venture as we see it at the moment. So, we have to be creative with this investment."
3	M	-	-
	W	"Not the case during this meeting."	"Not the case during this meeting."
<b>KAPPA CYCLE 1 T/M 3 = 0,872</b>			
4	M	<p>"The current course of action is not really based on affordable loss, since we already know that this will be an expensive way of distributing. So, in case this will not work out in a creative way, we will figure out another way of distributing the ordered products."</p> <p>"The current course of action also focuses on using the network of existing marketing tools which will reduce the initial investment in marketing."</p>	<p>"The current course of action is not really based on affordable loss, since we already know that this will be an expensive way of distributing..... So, in case this will not work out in a creative way, we will figure out another way of distributing the ordered products."</p> <p>"The current course of action also focuses on using the network of existing marketing tools which will reduce the initial investment in marketing."</p>
	W	<p>"Discussing how to be creative in keeping the costs as low as possible is more the case/interesting."</p> <p>"Affordable loss is still in a phase where we use it as; don't spend money on things you don't need now. What do we really need to start this venture. We know what is interesting to have in the future, but how can we start without it?"</p>	<p>"Discussing how to be creative in keeping the costs as low as possible is more the case/interesting."</p> <p>"Affordable loss is still in a phase where we use it as; don't spend money on things you don't need now. What do we really need to start this venture. We know what is interesting to have in the future, but how can we start without it?"</p>
5	M	"Our first committed stakeholder advised us to consider ways of payment in which we can reduce the cash needs beforehand. For instance, he mentioned that we might negotiate with a packaging manufacturer that we want to order 1000 pieces while we are only paying per 50 pieces. This in order to pay after we have earned money. This also concerns our thought about delayed payment terms that we like to receive from a packaging manufacturer."	-
	W	"We first want to get a better view of each course of action. So evaluating on affordable loss isn't really the case at this moment."	"We first want to get a better view of each course of action. So evaluating on affordable loss isn't really the case at this moment."
6	M	"The possibility of a locker system will require quite some investment. At least, if we want to buy them ourselves. However, we also see the possibility of using existing locker systems."	"The possibility of a locker system will require quite some investment. At least, if we want to buy them ourselves. However, we also see the possibility of using existing locker systems. That possibility should be investigated further on the basis of affordable loss. We just try to find the best option when considering labor, investment needs, efficiency and convenience for the customer and us."
	W	-	-
<b>KAPPA CYCLE 4 T/M 6 = 0,921</b>			
7	M	Stakeholder 7: <i>"First of all, be creative. Look around and see what you can do"</i>	Stakeholder 7: <i>"First of all, be creative. Look around and see what you can do"</i>

		<i>already.</i> ”	<i>already.</i> ”
	W	-	-
8	M	<p>“It would be even better if we can combine our store/take-away restaurant with a place to live.”</p> <p>“If we want to have a store, we have to find a creative way of investment, since we don’t have start capital. The best solution would be to rent a property so we don’t have the risk of losing all the invested money.”</p>	<p>“It would be even better if we can combine our store/take-away restaurant with a place to live.”</p> <p>“If we want to have a store, we have to find a creative way of investment, since we don’t have start capital. The best solution would be to rent a property so we don’t have the risk of losing all the invested money.”</p>
	W	“We have to find a construction where we downsize the risks and the need for investment. So we have to find a property that we can rent instead of buy. A place where we can live as well would be extra interesting.”	“We have to find a construction where we downsize the risks and the need for investment. So we have to find a property that we can rent instead of buy. A place where we can live as well would be extra interesting.”
9	M	<p>“Within the design, we will look for the things we really need. We have to make considerations of what will be valuable for the potential customers and us and what is not necessary to integrate in the start. Moreover, we are looking for ways in which to decrease the costs of building the Food Truck.”</p> <p>“Another important thing that we explained, but also added in the effectual business plan that we send him, was that we made decisions on the basis of affordable loss and are looking for creative ways in order to reduce the investment needs. He told us that that was the strength of our effectual business plan: being creative about what you really need for this concept. He explained that by keeping the costs low, the minimum amount that we have to earn will also be lower. This reduces the risks for us and for investors.”</p> <p>The stakeholders gave us feedback on our effectual business plan. The thing that he liked most about our plan is that we are creative concerning the things we really need. Stakeholder 11: <i>“For instance, you can decide to let an external party build the truck, this costs more than €100000. By doing this yourself and gaining all the knowledge that is necessary for it, you reduce this amount to €70000. That is a good way of thinking. What do you really need.”</i></p> <p>Another important aspect that the stakeholder mentions is a good financial plan. Stakeholder 11: <i>“Underpin what you exactly need and what you have done to decrease this amount of money. So, be creative in order to reduce the costs and investment needs and show that to your investor. Also show the investor what you should minimally earn in order to cover all the costs, so break-even point.”</i></p>	<p>“We have to make considerations of what will be valuable for the potential customers and us and what is not necessary to integrate in the start. Moreover, we are looking for ways in which to decrease the costs of building”.</p> <p>“Another important thing that we explained, but also added in the effectual business plan that we send him, was that we made decisions on the basis of affordable loss and are looking for creative ways in order to reduce the investment needs. <b>KAPPA CYCLE 7 T/M 9 = 0,945</b>			
10	M	“What we continuously do is looking for ways to reduce the resources we need. Everybody, including this stakeholder, tells us to be creative regarding the resources we need and to look around us for opportunities in order to reduce the amount of resources and cash we need.”	“What we continuously do is looking for ways to reduce the resources we need. Everybody, including this stakeholder, tells us to be creative regarding the resources we need and to look around us for opportunities in order to reduce the amount of resources and cash we need.”
	W	“We are concentrating on the creative part ‘how to generate resources as cheap as possible. For instance, we have committed this stakeholder on the basis of a partnership in which he delivers half-fabricates for purchase prices. This reduces the amount of money we should otherwise needed in order to hire another cook, while it does bring us the needed resources.”	“We are concentrating on the creative part ‘how to generate resources as cheap as possible. For instance, we have committed this stakeholder on the basis of a partnership in which he delivers half-fabricates for purchase prices. This reduces the amount of money we should otherwise needed in order to hire another cook, while it does bring us the needed resources.”
11	M	“The most important thing about affordable loss is that you look for ways in order to reduce the resources you need. We could start our own restaurant, this is quite expensive. With the Food Truck we think that we have chosen for a cheaper option than a restaurant. Moreover, we are continuously thinking about ways to reduce our cash needs and to make of use of ‘slack resources’. For instance, we might be able to make use of stock lots.”	“The most important thing about affordable loss is that you look for ways in order to reduce the resources you need. Moreover, we are continuously thinking about ways to reduce our cash needs and to make of use of ‘slack resources’.”
	W	-	-
12	M	-	“There might be a chance that we gather enough persons (within our network) who could help us with the design and building of the Food Truck. However, we truly belief that this has to be done professional, so we don’t want to rely on all of these persons and rather find one person who can manage the whole building project. So, in that sense we are not reducing the cash needs during the start up phase. However, we are positive that this will influence the quality of the Food Truck and thus think it is worth the investment when we look at the long term.”
	W	“At this moment we concentrating on looking what do we really need in order to reduce the needed cash and how can we purchase leftovers with a huge discount.”	“At this moment we concentrating on looking what do we really need in order to reduce the needed cash and how can we purchase leftovers with a huge discount.”

<b>KAPPA CYCLE 10 T/M 12 = 0,888</b>			
13	M	<p>“I notice that once I made the choice for the Food Truck, I go for it and I am not prepared to chance the whole idea. I am open for ideas about possible actions that we can execute with the Food Truck.”</p> <p>“This course of action will be executed in such a way that we are flexible in the activities that we can possibly perform with the Food Truck.”</p>	<p>“I notice that once I made the choice for the Food Truck, I go for it and I am not prepared to chance the whole idea. I am open for ideas about possible actions that we can execute with the Food Truck.”</p> <p>“This course of action will be executed in such a way that we are flexible in the activities that we can possibly perform with the Food Truck.”</p>
	W	-	-

14	M	<p>“The most interesting course of action is still the Food Truck. We are already working on that course of action because we really see potential in it and have control over the resources that we already have and need.”</p> <p>“However, we like to keep the option of a store open because we thought it was a good concept when we consider our interests and possibilities. So, we are still thinking about this course of action and take action in order to find out if we can exploit it or not. This means that I think it is not necessary to choose for one option and to put all energy and time in that option, but that it might also be possible to keep other options and imagined ends open for investigation.”</p> <p>“It feels good to take action in order to find out if something is an opportunity or is moving towards a ‘dead-end’. I can feel that people in our social environment really appreciate this active and creative mind-set. Don’t only think and dream, but take action and decide what you want, go or no go.”</p>	<p>“It feels good to take action in order to find out if something is an opportunity or is moving towards a ‘dead-end’. I can feel that people in our social environment really appreciate this active and creative mind-set. Don’t only think and dream, but take action and decide what you want, go or no go. And even more important, be creative concerning the resources that you need and attract.”</p>
	W	<p>“We still first focus on our main course of action and besides this we want to investigate again another course of action since we are convinced, and many with us, that this is also a very interesting opportunity.”</p>	-

## INTERACT WITH (POTENTIAL) STAKEHOLDERS

### HEURISTIC 7: MAKE A PRIORITY LIST OF POTENTIAL STAKEHOLDERS YOU KNOW AND WHO ARE WORTH INTERACTING OR CO-CREATING WITH

Cycle	Entrepreneur	Coding of researcher 1	Coding of researcher 2
1	M	<p>“We could easily decide which stakeholder to approach first because we started with the resource we needed most.”</p> <p>“The stakeholder has a large network of entrepreneurs and suppliers. We would like to get access to these resources.”</p> <p>Stakeholder 1: <i>“If you tell this person that I am in, than he will also commit.”</i>  “Therefore, we think this is as an opportunity and we see this potential stakeholder as the next important stakeholder on our priority list.”</p> <p>“Since I already knew this stakeholder from my own network, it was not difficult to approach him.”</p> <p>“It is easier to approach people we already know than a stranger of whom we do not know how he/she actually thinks about things. By approaching people from our own network, it seems to be easy to convince and commit people because you already know what you can offer each other and there is already a kind of trust relationship.”</p> <p>“I have to take into account that the first stakeholder is an acquaintance (ex-colleague) of me and that he knows me considering work and effort that I want to take and I know how he wants to be approached and work. Therefore, I assume it was easier to commit him than if it would be a ‘stranger’ or someone with more distance from us.”</p> <p>“We have made a list of potential stakeholders of the people in our network. We already decided beforehand that the most important stakeholder would be a specialized, enthusiastic and skilled cook because that is a prominent resource that we do not possess. Without commitment for this resource we cannot set up the current venture idea.”</p>	<p>“We could easily decide which stakeholder to approach first because we started with the resource we needed most.”</p> <p>“The stakeholder has a large network of entrepreneurs and suppliers. We would like to get access to these resources.”</p> <p>Stakeholder 1: <i>“If you tell this person that I am in, than he will also commit.”</i>  “Therefore, we think this is as an opportunity and we see this potential stakeholder as the next important stakeholder on our priority list.”</p> <p>“Since I already knew this stakeholder (I have worked with him for years) it was not difficult to approach him. I have tried to keep the first contact lightly and to explain that we are in the development phase of a venture concept concerning slow food and need some extra insights and inspiration of him. He immediately responded positively and was open for a meeting.”</p> <p>“It is easier to approach people we already know than a stranger of whom we don’t know how he/she actually thinks about things. By approaching people from our own network, it seems to be easy to convince and commit people because you already know what you can offer each other and there is already a kind of trust relationship.”</p>

			<p>“Before actually approaching the stakeholder as stakeholder, we ‘accidentally’ met him and talked a while with him. This was very inspiring for us and confirmed that this person would be the first stakeholder to approach.”</p>
	W	<p>“He was the person out of our pool of resources (who I know) who has valuable resources that we are interested in.”</p> <p>“At the end of the meeting the stakeholder proposed an interesting next potential stakeholder from his own network. This is also an ex colleague of him and of my partner and has an ICT company.” Stakeholder 1: <i>“Say that I committed to the project and that he also has to commit now.”</i> “We immediately approached this next stakeholder and we have a meeting next week.”</p> <p>“Interesting was the fact that he advised us to look for people around you, if they can help you with, for instance, building a website.”</p> <p>“Before interacting with other stakeholders, we think it is important to start with something we don’t have enough, cook experience.”</p>	<p>“He was the person out of our pool of resources (who I know) who has valuable resources that we are interested in.”</p> <p>“At the end of the meeting the stakeholder proposed an interesting next potential stakeholder from his own network. This is also an ex colleague of him and of my partner and has an ICT company.” Stakeholder 1: <i>“Say that I committed to the project and that he also has to commit now.”</i> “We immediately approached this next stakeholder and we have a meeting next week.”</p> <p>“Interesting was the fact that he advised us to look for people around you, if they can help you with, for instance, building a website.”</p> <p>“We think it is important to start with something we don’t have enough, cook experience.”</p> <p>“We thought that we also have to talk with suppliers in the beginning but this is at this moment not the most important kind of stakeholder. After a meeting this list can change.”</p>
2	M	<p>“Looking at our current venture concept, which was formed in correspondence with the first stakeholder, we now have to find someone who is willing to commit his/her resources regarding ICT to our venture concept. This is the second most important stakeholder on our priority list of stakeholders.”</p> <p>“After the meeting with the first stakeholder it was very clear that the next stakeholder would be this person. He is an acquaintance of both me and the first stakeholder and he seems the designated person to contact. Or as the first stakeholder puts it: <i>“Just tell him that I am in, and then he will also commit.”</i> It seems that making use of each other’s network, and to approach people from the network of committed stakeholders is a good way of handling.”</p>	<p>“Looking at our current venture concept, which was formed in correspondence with the first stakeholder, we now have to find someone who is willing to commit his/her resources regarding ICT to our venture concept. This is the second most important stakeholder on our priority list of stakeholders.”</p> <p>“After the meeting with the first stakeholder it was very clear that the next stakeholder would be this person. He is an acquaintance of both me and the first stakeholder and he seems the designated person to contact.”</p>
	W	<p>“ICT is a major part of the idea it has the highest priority after committing a cook.”</p>	<p>“ICT is a major part of the idea it has the highest priority after committing a cook.”</p>
3	M	<p>“For us it was not important to put this stakeholder at top of our priority list because we do not need commitment of him, but just information and inspiration that we can use for the development of the concept.”</p>	<p>“For us it was not really important to put this stakeholder at top of our priority list because we do not need commitment of him, but just information and inspiration that we can use for the development of the concept.”</p>
	W	<p>“This stakeholder is on our priority list because he has a huge network in our field of interest, so we are interested in getting access to this network.”</p>	<p>“This stakeholder is on our priority list because he has a huge network in our field of interest, so we are interested in getting access to this network.”</p>

		<p>“The list is not really based on priority. Some meetings are planned which has to be taken place to keep forward the project. This meeting is planned in order to make a decision concerning the role that the product has to get in the whole idea.”</p>	
<b>KAPPA CYCLE 1 T/M 3 = 0,835</b>			
4	M	<p>“For now, it is important to go back to the committed stakeholder 1, in order to see whether he is still willing to help us. If we have his commitment affirmed, we can move on with more certainty to the next stakeholder. Because, without the definite commitment of this stakeholder, our concept is not strong enough to approach other stakeholders.”</p>	<p>“For now, it is important to go back to the committed stakeholder 1, in order to see whether he is still willing to help us. If we have his commitment affirmed, we can move on with more certainty to the next stakeholder. Because, without the definite commitment of this stakeholder, our concept is not strong enough to approach other stakeholders.”</p>
	W	<p>“We would like to get some feedback on the new imagined ends, formulated after the meetings with stakeholder 2 and 3. Plans are changed and we want to know if stakeholder 1 will still commit.”</p>	<p>“We would like to get some feedback on the new imagined ends, formulated after the meetings with stakeholder 2 and 3. Plans are changed and we want to know if stakeholder 1 will still commit.”</p> <p>“The concept is further developed so we have to communicate that with our pre-committed stakeholder.”</p>
5	M	<p>“We still have some interesting companies/persons on our priority list. These are not within our own reach/network so we have to be sure that we only contact them if we have a good story to offer and are really serious about using their product or service.”</p>	<p>“We still have some interesting companies/persons on our priority list.”</p> <p>“I was quite surprised that our stakeholder knew someone of a packaging manufacturer. Strange to notice that you can reach so many people through your own network contact.”</p>
	W	<p>“Since we have pre-committed the two most important stakeholders to the project, it is important to approach companies that are specialized in packaging because this has to become one of our unique selling points.”</p>	<p>“Since we have pre-committed the two most important stakeholders to the project, it is important to approach companies that are specialized in packaging because this has to become one of our unique selling points.”</p>
6	M	<p>“For this possibility we need a stakeholder who works for a company that offers these locker systems. One of our pre-committed stakeholders came up with an employee of an interesting company in this industry. We have made an appointment with him in order to find out whether this option is interesting for our venture concept.”</p>	<p>“For this possibility we need a stakeholder who works for a company that offers these locker systems. One of our pre-committed stakeholders came up with an interesting company in this industry.”</p>
	W	<p>“In this stage we will approach the people/companies that can give us the needed information to make a decision which courses of action are doable, cheap and realizable.”</p>	<p>“In this stage we will approach the people/companies that can give us the needed information to make a decision which courses of action are doable, cheap and realizable.”</p>
<b>KAPPA CYCLE 4 T/M 6 = 0,854</b>			

7	M	<p>“We have investigated the options considering distribution of the products. We know most of the pros and cons and have relatively good insight in the possibilities. We really like to talk to an experienced entrepreneur in order to find out what he would do in our case. It feels comfortable to ‘test’ the options and to gain further insight into the venture concept by talking to an experienced person.”</p> <p>“This person was already on our priority list, but we wanted to wait until we knew some more so he could help us make it a bit more concrete.”</p>	<p>“We have investigated the options considering distribution of the products. We know most of the pros and cons and have relatively good insight in the possibilities. We really like to talk to an experienced entrepreneur in order to find out what he would do in our case. It feels comfortable to ‘test’ the options and to gain further insight into the venture concept by talking to an experienced person.”</p> <p>“This person was already on our priority list, but we wanted to wait until we knew some more so he could help us make it a bit more concrete.”</p>
	W	<p>“We have investigated all the three options and we want to get advice of an entrepreneur who has more experience with making choices like this.”</p> <p>“He was already standing on our list since he is close to our means, however we waited till we needed him the most. We are now at a point that we have to choose for one option, and since a couple of days we have more information about those options. This is the time to approach this stakeholder.”</p> <p>“We got some advice of previous stakeholders to search for an experienced entrepreneur who would like to help and support us during the development of the concept. So that’s a reason as well to approach an entrepreneur.”</p>	<p>“We have investigated all the three options and we want to get advice of an entrepreneur who has more experience with making choices like this. Also since we have found evidence in papers that successful entrepreneurs are better in making choices than novice entrepreneurs as we are.”</p> <p>“He was already standing on our list since he is close to our means, however we waited till we needed him the most. We are now at a point that we have to choose for one option, and since a couple of days we have more information about those options.”</p> <p>“We got some advice of previous stakeholders to search for an experienced entrepreneur who would like to help and support us during the development of the concept. So that’s a reason as well to approach an entrepreneur.”</p>
8	M	<p>“The next stakeholder who we are going to meet is a self-selected stakeholder. He was interested in our venture concept and in the possibilities it has. The stakeholder is a consultant in our field of interest. He wants to help us (non-committal) with his knowledge and ideas in order to develop our venture concept.”</p> <p>“We already contacted this stakeholder a while ago. It was not necessary to talk to him earlier and this was the first opportunity to meet. This stakeholder does not have to commit, but might help us to develop our venture concept.”</p>	<p>“The next stakeholder who we are going to meet is a self-selected stakeholder. He was interested in our venture concept and in the possibilities it has. The stakeholder is a consultant in our field of interest. He wants to help us (non-committal) with his knowledge and ideas in order to develop our venture concept.”</p>
	W	<p>“This is a self selected stakeholder and he wants to give us some information about food waste and chain management. Besides, he wants to help us developing the concept idea and we would like to know what his opinion is about the three possible courses of action.”</p> <p>“This is a person we approached at last in a row of stakeholders who can help us deciding which course of action to choose and to help us developing the concept.”</p>	<p>“This is a self selected stakeholder and he wants to give us some information about food waste and chain management concerning food. Besides, he wants to help us developing the concept idea and we would like to know what his opinion is about the three possible courses of action.”</p> <p>“This is a person we approached at last in a row of stakeholders who can help us deciding which course of action to choose and to help us developing the concept.”</p>
9	M	<p>“We would like to ‘test’ our effectual business plan and get feedback on it from an experienced account manager of the bank. This is an institution that sees a lot of</p>

		<p>entrepreneurs and has branch data, so we like to find out if we have something in our hands that is promising.”</p> <p>“When we were talking to my brother, who is a bank employee, he put forth that we should present our ideas to the bank in order to get feedback on it. We were also looking for the feedback of a professional so we really thought it was a good idea to do that. Therefore, my brother has arranged a meeting with an account manager of the bank for us. This is normally not possible, but because he asked it, this account manager was willing to help us and give us feedback on our effectual business plan.”</p>	<p>entrepreneurs and has branch data, so we like to find out if we have something in our hands that is promising.”</p> <p>“When we were talking to my brother, who is a bank employee, he put forth that we should present our ideas to the bank in order to get feedback on it.”</p>
	W	<p>“For this moment we are looking for investors and we would like to start with the bank. When the bank is not willing to invest we will look further for private financiers. It feels safe to deal with a bank, that’s the reason why we first ask them. In addition, the employee of the bank is a colleague of our family, so it is a lead out of our network.”</p>	<p>“It was also a recommendation of a stakeholder to go to the bank and to ask them their opinion about the idea. A positive result of this meeting can be used in the persuasion to other potential investors.”</p>
<b>KAPPA CYCLE 7 T/M 9 = 0,864</b>			
10	M	<p>“Before we can make a financial plan with more calculations of what we need, we have to discuss the financial construction with our most important committed stakeholder, the cook.”</p>	<p>“Before we can make a financial plan with more calculations of what we need, we have to discuss the financial construction with our most important committed stakeholder.”</p>
	W	<p>“Since we have spoken with the bank and notice their enthusiasm about the idea, we wanted to inform this pre-committed stakeholder.”</p>	<p>“Since we have spoken with the bank and notice their enthusiasm about the idea, we wanted to inform this pre-committed stakeholder. After this meeting we will approach family and friend in order to find someone who is willing to commit the needed cash.”</p>
11	M	<p>“For now, it is important to find a way to finance our project. We like to find out if our family can support us with that. Therefore, the next meeting is with my father and brother in order to see if we can lend some money of them, and under what conditions. WE rather like to lend the money of them than of the ‘expensive’ bank. Also if they lend us money, they are more triggered to help us with feedback and advice in order to make the venture concept a success. This won’t be possible with the bank.”</p> <p>“We are curious what our own family can do for us concerning the money that we need during the start-up and investment phase.”</p>	<p>“For now, it is important to find a way to finance our project. We like to find out if our family can support us with that”.</p>
	W	<p>“The meeting with the bank resulted in an advice of the bank to look for a privet investor and simultaneously our family self-select themselves into the project. Therefore this stakeholder was standing on the top of our priority list.”</p>	<p>“The meeting with the bank resulted in an advice of the bank to look for a privet investor and simultaneously our family self-select themselves into the project. Therefore this stakeholder was standing on the top of our priority list.”</p>

		“Since the bank advised us to look for someone within your network to finance the needed cash, we approached our family.”	
12	M	“On top of our priority list is a camper builder who can manage the whole ‘building project’ in correspondence with us. We have asked around in our network and we have searched on the internet. Finally we came at a professional camper builder who has his own company.”	“On top of our priority list is a camper builder who can manage the whole ‘building project’ in correspondence with us. We have asked around in our network and we have searched on the internet. Finally we came at a professional camper builder who has his own company.”
	W	-	“This is the most important supplier we need and after this we will concentrate on the suppliers where we can purchase more important products we need.”
<b>KAPPA CYCLE 10 T/M 12 = 0,831</b>			
13	M	“During a conversation with the family of my partner, we came to the wonderful insight that a nephew of them is a mechanic in cool technique and catering equipment. He has a lot of contacts and insights in this branch, so hopefully he can help us further with the practical design of the Food Truck. This is very important at the moment, so he is on top of our priority list.”	“During a conversation with the family of my partner, we came to the wonderful insight that a nephew of them is a mechanic in cool technique and catering equipment. He has a lot of contacts and insights in this branch, so hopefully he can help us further with the practical design of the Food Truck. This is very important at the moment, so he is on top of our priority list.”
	W	-	“Purchasing kitchen equipment has a major priority since it is one of the most expensive purchases. Making use of my nephew is the most important thing now.”
14	M	“After some months, the broker called us to say that he found a potential investor for the property. Although we had already decided to go for another course of action, the food truck, we are still open for this opportunity and told him that we are still interested.”  “We made an appointment with the broker and potential investor in order to talk though the possibilities.”	“After some months, the broker called us to say that he found a potential investor for the property. This investor is interested in the fuel station and not in the store. Although we had already decided to go for another course of action, the food truck, we are still open for this opportunity and told him that we are still interested.”
	W	“Since we want to become aware of the intentions of the potential investor for this extra course of action, we have decided to put him high in our priority list.”	“Since we want to become aware of the intentions of the potential investor for this extra course of action, we have decided to put him high in our priority list.”
15	M	“We have some friends/acquaintances who have an own restaurant or catering service. We didn’t have to make a priority list because the first one, the stakeholder of this cycle, already approached us to ask what the possibilities are and if we were willing to cooperate with him.”	“We have some friends/acquaintances who have an own restaurant or catering service. 		best way to pitch this idea to the stakeholder. He answered by stating that it depends on the portfolio of clients the ICT company has. A company cannot start only projects on provision base.”	best way to pitch this idea to the stakeholder. He answered by stating that it depends on the portfolio of clients the ICT company has. A company cannot start only projects on provision base.”  “I think it is a good thing to make an announcement in the first e-mail to the stakeholder, which states that we already have spoken with a partner of him; our first stakeholder. This in order to take advantage of the good relationship between the two.”
3	M	“The strategy is to explain our effectual business plan, but not in detail. We will explain the big lines and will tell the stakeholder that we are still looking for and discussing about the exact interpretation. We do this to prevent him to ‘walk away’ with our ideas.”	“The strategy is to explain our effectual business plan, but not in detail. We do this to prevent him to ‘walk away’ with our ideas.”  “We will not communicate all the ideas towards the stakeholder because we do not know him.”
	W	“During the meeting we pitched our idea very loosely. We were a little bit afraid that he has contacts that also have a kind of ambition to create a new venture concerning slow food in Arnhem. Since this person is not someone out of our network (who I know), we took no risks in being too naïve and telling him the whole story.”	“During the meeting we pitched our idea very loosely. We were a little bit afraid that he has contacts that also have a kind of ambition to create a new venture concerning slow food in Arnhem. Since this person is not someone out of our network (who I know), we took no risks in being too naïve and telling him the whole story.”  “The strategy is to convince the person that we have serious thoughts to include slow food in the concept and that we are professional.”
<b>KAPPA CYCLE 1 T/M 3 = 0,755</b>			
4	M	<p>“During this meeting we like to become a bit more concrete about the construction of payment etc. that we will handle with this stakeholder. So what are the conditions under which he likes to deliver the food to us?”</p> <p>“The strategy of the meeting is to introduce the ideas of the second and third stakeholder to him and to find out if he is still willing to commit to our venture concept.”</p> <p>“Pitching is not really necessary during the second meeting with this stakeholder. We just told the stakeholder the ideas of the other pre-committed stakeholders and asked him what he thought of it and whether it was a positive contribution to the initial ideas we had with this stakeholder.”</p> <p>“The purpose is to up-date the first committed stakeholder considering the ideas of our second (pre)-committed stakeholder and to find out what he thinks about these ideas and whether he is willing to commit to these ideas and thus has a flexible stance towards the input of others in the process.”</p>	<p>“During this meeting we like to become a bit more concrete about the construction of payment etc. that we will handle with this stakeholder. So what are the conditions under which he likes to deliver the food to us?”</p> <p>“The strategy of the meeting is to introduce the ideas of the second and third stakeholder to him and to find out if he is still willing to commit to our venture concept.”</p>

		<p>“During the meeting today, we like to find out if it is possible to make use of the slack resources of the stakeholder.”</p>	
	W	<p>“We planned this meeting to discuss the development of the project and hopefully we can convince him that the new insights are also beneficial for him.”</p> <p>“This meeting is for holding him on board since the plans are changed after meetings with other stakeholders.”</p>	<p>“Not really a well defined strategy plan. We planned this meeting to discuss the development of the project and hopefully we can convince him that the new insights are also beneficial for him.”</p>
5	M	<p>“The strategy is the same as with the previous stakeholders. We will start with the Neighbourfood story and will explain how and why we have developed this concept towards the ideas we have now. We will try to keep this superficial because we don’t want to give away our whole venture concept that easily.</p> <p>“During the meeting we will reveal our ‘problem’ that we are young entrepreneurs without money and start capital. This in order to express that we are looking for a good deal considering packaging.”</p> <p>“Another subject that we hope to discuss are the payment terms and ways in which they can support and help young entrepreneurs.”</p> <p>“Before the meeting, we send him our ideas for packaging. We have not sent him our complete effectual business plan because we don’t know him yet and we think it is not necessary for this person to know everything of our venture concept.”</p> <p>“This meeting is an introductory meeting. Since we might be a new ‘lead’ for the stakeholder and they might want to ‘make a sale’ themselves, we have decided beforehand not to commit to them directly because we like to search for the best deal and also like to talk to other packaging manufacturers. Also considering the contacts we already have through our second pre-committed stakeholder.”</p>	<p>“The strategy is the same as with the previous stakeholders. We will start with the Neighbourfood story and will explain how and why we have developed this concept towards the ideas we have now. We will try to keep this superficial because we don’t want to give away our whole venture concept that easily.”</p> <p>“During the meeting we will reveal our ‘problem’ that we are young entrepreneurs without money and start capital. This in order to express that we are looking for a good deal considering packaging.”</p> <p>“Another subject that we hope to discuss are the payment terms and ways in which they can support and help young entrepreneurs.”</p>
	W	<p>“The strategy is to tell him the story about Neighbourfood because that was successful during the first three meetings.”</p> <p>“We have to make the stakeholder curious and interested about the concept without telling him in detail what our plans are. This in order to reduce the chance that he will tell everything to other clients. When we realize that, hopefully he will invest in the design and development of the preferred product.”</p>	<p>“The strategy is to tell him the story about Neighbourfood because that was successful during the first three meetings.”</p> <p>“We have to make the stakeholder curious and interested about the concept without telling him in detail what our plans are. This in order to reduce the chance that he will tell everything to other clients. He has to believe that we have a great idea in hands. When we realize that, hopefully he will invest in the design and development of the preferred product.”</p>

6	M	<p>“The strategy is to introduce ourselves, our venture concept and the way in which we came up with the locker system. We just want to gather some information and ideas about this and are not really looking for commitment. However, we do like to scan about his ideas of young entrepreneurs and the way we can cooperate with his company. So, to what extend are they open for young entrepreneurs (without investment possibilities) and are willing to think creatively with us.”</p> <p>“Within his mail, he expressed the feeling that he was open to help us further with the development of the venture concept so if the meeting also takes that direction, we are open for it.”</p> <p>“We want to find out what the possibilities of the locker systems are and whether it is an option for distributing our product. So, we just want to gather information and advice and are not yet thinking about committing to this idea of distribution and to this company in particular.”</p>	<p>“The strategy is to introduce ourselves, our venture concept and the way in which we came up with the locker system. We just want to gather some information and ideas about this and are not really looking for commitment. However, we do like to scan about his ideas of young entrepreneurs and the way we can cooperate with his company. So, to what extend are they open for young entrepreneurs (without investment possibilities) and are willing to think creatively with us.”</p>
	W	<p>“First of all we will pitch the idea with enthusiasm and passion in order to create a positive atmosphere and would like to help young entrepreneurs. “The strategy is to introduce our concept and to tell him that we don’t know yet which distribution channel to chose.”</p> <p>“We want to pitch our idea so he can give feedback and we want to ask him about his entrepreneurial experience, tips/tricks, and we want to know if he knows people who might be interesting to speak with for the development of the concept.”</p>	<p>“First of all we will pitch the idea with enthusiasm and passion in order to create a positive atmosphere and where he would like to help young entrepreneurs. Secondly, the strategy is to introduce our concept and to tell him that we don’t know yet which distribution channel to chose.”</p> <p>“We want to pitch our idea so he can give feedback and we want to ask him about his entrepreneurial experience, tips/tricks, and we want to know if he knows people who might be interesting to speak with for the development of the concept.”</p>
<b>KAPPA CYCLE 4 T/M 6 = 0,717</b>			
7	M	<p>“Our strategy is to introduce the concept and to ask him what he thinks of it (feedback). Then, we will explain our ‘problem’ that we don’t know which direction to go from here, and cannot make the venture concept very concrete. Besides, we hope that the stakeholder will talk a lot about his own experience and ideas so we can gain new insight in entrepreneurship and our venture concept.”</p>	<p>“Our strategy is to introduce the concept and to ask him what he thinks of it (feedback). Then, we will explain our ‘problem’ that we don’t know which direction to go from here, and cannot make the venture concept very concrete. Besides, we hope that the stakeholder will talk a lot about his own experience and ideas so we can gain new insight in entrepreneurship and our venture concept.”</p>
	W	<p>“We will pitch the three options and we ask him what in his opinion is the best option. We will use the same introduction as we have used in previous cycles, so he gets a good idea of what our values are concerning the initial idea and how we would like to be entrepreneurial.”</p>	<p>“We will pitch the three options and we ask him what in his opinion is the best option. We will use the same introduction as we have used in previous cycles, so he gets a good idea of what our values are concerning the initial idea and how we would like to be entrepreneurial.”</p>
8	M	<p>“We have not a different strategy than with the other meetings.”</p>	<p>“We will tell our story so far. We have not a different strategy than with the other meetings.”</p>
	W	<p>“We don’t prepare ourselves differently from the other meetings.”</p>	<p>“We will tell him the same as we told the third stakeholder. We don’t prepare ourselves differently from the other meetings.”</p>

9	M	<p>“We have pitched our effectual business ideas with enthusiasm and drive and tried to show him who we are. We also explained the effectual process that we have gone through, so that we started with our own means and have looked what we could do with that.”</p> <p>“A very important aspect was that we explained that we talked to a lot of people (professionals, entrepreneurs, family etc.) in order to develop the effectual business plan. The stakeholder really seemed to appreciate this strategy because that makes that the final plan is well underpinned, not really with estimations of the future but with the ideas, trust and enthusiasm of people in and outside the branch and in our own environment.”</p> <p>“Another important thing that we explained, but also added in the effectual business plan that we send him, was that we made decisions on the basis of affordable loss and are looking for creative ways in order to reduce the investment needs. He told us that that was the strength of our effectual business plan: being creative about what you really need for this concept. He explained that by keeping the costs low, the minimum amount that we have to earn will also be lower. This reduces the risks for us and for investors.”</p> <p>“We would like to ‘test’ our effectual business plan and get feedback on it from experienced account manager of the bank. This is an institution that sees a lot of entrepreneurs and has branch data, so we like to find out if we have something in our hands that is promising.”</p> <p>“The meeting is with an account manager of a bank. Before looking for investors or other constructions to generate cash to cover the investment needs, we like to find out what the chances are for a loan of the bank. And what we should do for that. Maybe, the stakeholder can advice us what to do with the investment needs.”</p>	<p>“We have pitched our effectual business ideas with enthusiasm and drive and tried to show him who we are. We also explained the effectual process that we have gone through, so that we started with our own means and have looked what we could do with that.”</p> <p>“A very important aspect was that we explained that we talked to a lot of people (professionals, entrepreneurs, family etc.) in order to develop the effectual business plan. 3	M	"It really seemed that the stakeholder saw himself as mediator between us and the suppliers of special food. He gave us many ideas and contacts considering suppliers (who I know)."	"It really seemed that the stakeholder saw himself as mediator between us and the suppliers of special food. He gave us many ideas and contacts considering suppliers (who I know)."
	W	-	"This third person is also very enthusiastic about our ideas. It becomes more and more clear that we have something in our mind that could be a success."
<b>KAPPA CYCLE 1 T/M 3 = 0,786</b>			
4	M	"The second meeting with this stakeholder was really different than the first. It really felt that we had absolute commitment of the stakeholder and that he was willing to advice us what was feasible and not. Also because we are not experienced, while he is."	"We just told the stakeholder the ideas of the other pre-committed stakeholders and asked him what he thought of it and whether it was a positive contribution to the initial ideas we had with this stakeholder. He still commits."

	W	<p>“If you come with good reasoning the stakeholder will still commit to the developed idea. Complement it with an example is working even better.”</p> <p>“The benefits of including these new elements into the concept are discussed and the stakeholder was enthusiastic because these elements can solve the ‘problem’ how to sell it to the customer/how to reach that customer. This is always a major issue for the stakeholder. To come up with an idea is not that difficult, but to bring it to the market is much harder.”</p>	<p>“If you come with good reasoning the stakeholder will still commit to the developed idea. Complement it with an example is working even better.”</p> <p>“The benefits of including these new elements into the concept are discussed and the stakeholder was enthusiastic because these elements can solve the ‘problem’ how to sell it to the customer/how to reach that customer. This is always a major issue for the stakeholder. To come up with an idea is not that difficult, but to bring it to the market is much harder.”</p>
5	M	<p>“He mentioned that our wishes concerning packaging are not available yet and that it is hard to make them customized for us because we are just starting entrepreneurs and have no idea yet of the amount of packaging that we need in the future. This customization would be an option for the future, but not for now.”</p> <p>“He was convinced that market research is not always valuable. He also seems to understand and support our vision to keep the investments as low as possible.”</p>	<p>“He mentioned that our wishes concerning packaging are not available yet and that it is hard to make them customized for us because we are just starting entrepreneurs and have no idea yet of the amount of packaging that we need in the future. This customization would be an option for the future, but not for now.”</p> <p>“It seems to me that it is not important for the stakeholder what strategy (effectuation or causation) we execute since he is only interested in selling us a product.”</p> <p>“He was convinced that market research is not always valuable. He also seems to understand and support our vision to keep the investments as low as possible. Unfortunately he didn’t respond by coming up with creative ways of investment and lowering cash needs from his viewpoint as packaging manufacturer. He did mention that we can get some discount and can get delayed payment terms. But most probably that will be the case for each new lead of the company and not only for us as young starting entrepreneurs.”</p>
	W	<p>“We tried to tell him the main elements of the concept without telling him in detail what the plans are. This worked not that well. To pitch your idea it becomes necessary that you pitch it that concrete as possible to make is clear for the stakeholder to imagine what our plans are. The stakeholder will ask you things to make it as clear as possible. So in the end, you have told him almost everything.”</p> <p>“Since we told him that we don’t have a lot of money he proposed more and more to use the available designs to make it doable. In this industry it goes about volumes which influence the price a lot. A starting company doesn’t know how large the volumes will be. Moreover, since we don’t know our volumes he cannot inform us what something will cost. This was a little bit annoying. Moreover, he supports</p>	<p>“We tried to tell him the main elements of the concept without telling him in detail what the plans are. This worked not that well. 		novice entrepreneurs so he would like to think as us in reducing cash needs but also he sees the need for a distinctive design.”	novice entrepreneurs so he would like to think as us in reducing cash needs but also he sees the need for a distinctive design.”
6	M	<p>“Next time, we should prepare a bit better and should update the effectual business plan beforehand. That makes it easier to communicate our venture concept and the motives behind the choices for that.”</p> <p>“We have introduced ourselves and pitched the effectual business plan. The stakeholder was very interested and asked a lot of questions. Also some questions to test us whether we know what we are doing. Sometimes this was difficult to answer, because we didn’t prepare it that way, but it was good for us to think about our venture concept very deeply.”</p> <p>“In addition, such a meeting also contributes to thinking ‘out of the box’. Although, he noticed that there was maybe not an extensive role for his company, he was prepared to think about other options with us. It is always good to notice that someone wants to help you and that he has the same ideas that we have. This is a sort of reassurance that our venture concept is promising and feasible.”</p> <p>“Considering the venture concept, we can see this meeting as a sort of ‘feedback’ moment in which someone within the network of our network gives us feedback about our current venture concept and the feasibility and possibilities. Step for step, the venture concept gets more concrete due to the ‘testing’ of it during meetings. It is really not the case that the potential entrepreneurs are only looking if there is something in it for them, they are also open and willing to help and advice us for our benefit.”</p>	<p>“Next time, we should prepare a bit better and should update the effectual business plan beforehand. That makes it easier to communicate our venture concept and the motives behind the choices for that.”</p> <p>“We have introduced ourselves and pitched the effectual business plan. Why should they commit to the venture concept? What is your distinctive factor? Make sure that you have a clear picture of that, and then you can</p>

			convince others.”
			“This also means that you need to have your own identity. Create an environment in which people know who you are and what they can expect of you. People also want some certainty.”
	W	<p>“Every time I am surprised about the enthusiastic behaviour of the stakeholders we meet. They all love the idea and they all see opportunities, they like to think about the concept, to give suggestions, recommendations, etc. this makes it more easy to tell your story and it makes us more and more excited about the whole project.”</p> <p>Stakeholder 7: <i>“Decrease your risks by betting on more than one source of revenues. If one source performs badly, than another source will hopefully perform better financially. So spread your risks and don’t be too dependent on one source.”</i></p> <p>“Nowadays, there is a huge variety in people who are buying products which cannot be divided in kind of target groups (age, gender, income etc.). So he advised us to put ‘all’ the effort in company awareness/branding. So that people will see you and hear from you, and then people will come to you and those people you put into a target group.”</p> <p>“The stakeholder advised us to just start a company; don’t wait until you have planned everything in detail. Just start, learn and adjust. That is the best way to start a new venture.”</p> <p>“Again, he advised us to put ‘all’ the effort in company awareness/branding. This has to be realized with creative tools and have to be cheap. Think in the way of publicity stunts which will result in free publicity in the news papers or social media, or let people try your products for free. Important here is that you have to calculate if it worth doing and not too expensive.”</p> <p>“Elevator pitch, you don’t get the time to tell them the whole story in a row. Since all the stakeholders are very interested and enthusiastic, they will interrupt very quickly most of the time. So sometimes the subject will change very quickly without getting the time to underpin your thoughts.”</p> <p>“We experience that starting with a kind of tangible story in the pitch is working very well.”</p> <p>“This stakeholder advised us to make an overview of what we have to earn at a</p>	<p>“Every time I am surprised about the enthusiastic behaviour of the stakeholders we meet. 		<p>minimum. This is something you can calculate and it gives an idea if the concept is worth doing.”</p>	<p>“We pitched the initial idea as we did during all the other meetings and also this time it worked very well. And we pitched the three options as mentioned before.”</p> <p>“Starting companies have to make customers curious and willing to have your products since you make the products ‘special’. They have to think that the product is very special and that everyone likes it so much since your company is very busy. They want to be part of the community that also is able to get your products.”</p>
8	M	<p>“During the meeting we noticed that he was also looking if there was something in it for him. He was also thinking about starting his own business with some friends. We had information of the local government of Arnhem about their policy concerning the food industry. It felt good to give him something back for his advice and information that he gave us.”</p> <p>Stakeholder 9: <i>“Make sure that you are professional from the start. Don’t mess around. You can start small in order to prove yourselves but make sure that your attitude is professional and reliable.”</i></p> <p>Stakeholder 9: <i>“I would not invest my own money in the start-up. I would go to a bank or investor and present my plan. If they want to give me the money, they think that the plan is promising. If I don’t get financing of my plan, it is most probably not good enough so I have to think of something else. So, use external investors as test if the plan is promising.”</i></p> <p>“The stakeholder gave us good inspiration and advice concerning our venture concept. He explained us how he would do it, and what direction we should take.”</p>	<p>“During the meeting we noticed that he was also looking if there was something in it for him. He was also thinking about starting his own business with some friends. We had information of the local government of Arnhem about their policy concerning the food industry. It felt good to give him something back for his advice and information that he gave us.”</p> <p>Stakeholder 9: <i>“Also, even if there is nothing to worry about, in the sense that ‘there is nothing to lose’, make sure that you are professional from the start. Don’t mess around. You can start small in order to prove yourselves but make sure that your attitude is professional and reliable.”</i></p> <p>Stakeholder 9: <i>“I would not invest my own money in the start-up. I would go to a bank or investor and present my plan. If they want to give me the money, they think that the plan is promising. If I don’t get financing of my plan, it is most probably not good enough so I have to think of something else. So, use external investors as test if the plan is promising.”</i></p> <p>Stakeholder 9: <i>“Moreover, you really have to make sure that you don’t work for 100 hours in the store/restaurant but that you save time to develop the concept and to expand you business to other cities. That is what you want, so reserve time for looking at the future. That is an often made mistake among young entrepreneurs.”</i></p> <p>“As young entrepreneurs you have to map the risks and pitfalls of the venture concept in order to be prepared for ‘entrepreneurship’. This prevents unnecessary disappointments.”</p>
	W	<p>“We pitched our plans not differently than at other meetings. This time we made sure that we got the chance to tell the stakeholder the whole story. Since other</p>	<p>“We pitched our plans not differently than at other meetings. This time we made sure that we got the chance to tell the stakeholder the whole story. Since other</p>

		<p>stakeholders were so enthusiastic and started questioning during the pitch, we weren't able to tell him the whole process."</p> <p>"Again, making a story of our concept on the basis of a successful equivalent food concept was a success. After telling that, he was willing to commit his knowledge."</p>	<p>stakeholders were so enthusiastic and started questioning during the pitch, we weren't able to tell him the whole process."</p> <p>"Again, making a story of our concept on the basis of a successful equivalent food concept was a success. After telling that, he was willing to commit his knowledge."</p> <p>Stakeholder 8: <i>"If you start from home (as a hobby) you can try to find audience for your product. If you have found them you can also make it commercial."</i></p>
9	M	<p>"As a result of the meeting, we got all the advice and tips that we needed before we can request a loan of the bank. The stakeholder exactly told us what is important, especially financially speaking, and what we have to do better. "</p> <p>"Another important thing that he gave us was 'confidential' branch figures which contain the indicators of the catering industry and the way the bank looks towards this branch. The stakeholder told us that he would not give this information to other clients, but because we are family of his colleague, he is willing to give us the confidential information. It was really good to notice that we could make such good use of our network and that people 'trust' you through their network contacts."</p> <p>"The stakeholders gave us feedback on our effectual business plan. The thing that he liked most about our plan is that we are creative concerning the things we really need. Stakeholder 11: <i>"For instance, you can decide to let an external party build the truck, this cost more than €100000. By doing this yourself and gaining all the knowledge that is necessary for it, you reduce this amount to €70000. That is a good way of thinking. What do you really need?"</i></p>	<p>"We got all the advice and tips that we needed before we can request a loan of the bank. He also advised us to look further than the bank and to think about other investors or angels".</p> <p>"He gave us 'confidential' branch figures which contains the indicators of the catering industry and the way the bank looks towards this branch. The stakeholder told us that he would not give this information to other clients, but because we are family of his colleague, he is willing to give us the confidential information. It was really good to notice that we could make such good use of our network and that people 'trust' you through their network contacts."</p> <p>"We made decisions on the basis of affordable loss and are looking for creative ways in order to reduce the investment needs. He told us that that was the strength of our effectual business plan: being creative about what you really need for this concept. He explained that by keeping the costs low, the minimum amount that we have to earn will also be lower. This reduces the risks for us and for investors".</p>
	W	<p>"The pitch went well, but was a little bit different because we already send him a business plan in advance. This resulted in a very well prepared stakeholder who liked the idea a lot and was questioning from the start of the meeting."</p> <p>"The interpretation of making use of predictive figures is different than I thought. It is more a method to get an indication if the business idea is financially interesting and feasible. With some indication of pricing in combination with time, is it realistic to, for instance, break-even. What kind of costs do you have in some periods of the year? Are there some reasons to think that you will not be that busy in some parts of the</p>	<p>"The pitch went well, but was a little bit different because we already send him a business plan in advance. 	W	“This was not necessary during this meeting because the stakeholder already knew our venture concept”.	“This was not necessary during this meeting because the stakeholder already knew our venture concept”.
11	M	“The stakeholders are both experienced entrepreneurs. I really notice that they like to teach us about their entrepreneurial expertise. They want us to learn about entrepreneurship in practice; about the tradeoffs that you have to make, about making decisions, working hard in order to be successful, and about the financial issues that it brings. For me it feels that they like to be a kind of ‘coach’ in order to help us to make the right decisions and to make the venture a success. So, to prevent us to make decisions with negative consequences. However, they are aware that we have to learn in practice and that they cannot outline the path that we have to go through within this entrepreneurial journey.”	“Since it is our family they are familiar with our venture concept. This made it not necessary to pitch our venture idea.”
	W	“Pitching was not really needed. They were up to date about our plans”	“Pitching was not really needed. They were up to date about our plans”

I really need to be excited about the venture concept and it needs to have ambition.”</i></p> <p>‘Since the venture idea is not concrete yet, we felt that the stakeholder did not feel for discussing and negotiating what would convince him to come on board.’</p> <p>“He was reserved about talking about the construction of a possible commitment between him and us.”</p> <p>Stakeholder 2: <i>“It is too soon to think about financial constructions. I cannot and will not do statements about that.”</i></p>
	W	<p>“This all in order to realize a partnership that is dependent on the success of this project. We think he will put more effort in his own designed applications because it generates money. In addition, we don’t have the money yet to pay him per hour, so we want to pay him when we also make money.”</p> <p>Stakeholder 2: <i>“You have to make use of existing distribution channels in order to increase your sales range and reduce cash needs to develop one yourself.”</i></p>	<p>“This all in order to realize a partnership that is dependent on the success of this project. In addition, we don’t have the money yet to pay him per hour, so we want to pay him when we also make money.”</p> <p>Stakeholder 2: <i>“You have to make use of existing distribution channels in order to increase your sales range and reduce cash needs to develop one yourself.”</i></p>
3	M	“This was not necessary to discuss during the meeting. This was not a subject that we wanted to discuss with him.”	“This was not necessary to discuss during the meeting. This was not a subject that we wanted to discuss with him.”
	W	“This was not a stakeholder that would like to earn some money from us.”	“This was not a stakeholder that would like to earn some money from us.”
<b>KAPPA CYCLE 1 T/M 3 = 0,864</b>			
4	M	<p>Stakeholder 4: <i>“You can try to negotiate with a packaging supplier that you are willing to buy for instance thousand pieces, but want to pay in terms of 50 pieces. That reduces the cost beforehand which makes it easier to earn some money. Moreover, just tell them that you are young entrepreneurs and need some help for the start-up. Don’t be afraid to ask somebody for their help.”</i></p> <p>“During the meeting with this stakeholder, the stakeholder himself came up with a</p>	<p>Stakeholder 4: <i>“You can try to negotiate with a packaging supplier that you are willing to buy for instance thousand pieces, but want to pay in terms of 50 pieces. That reduces the cost beforehand which makes it easier to earn some money. Moreover, just tell them that you are young entrepreneurs and need some help for the start-up. Don’t be afraid to ask somebody for their help.”</i></p> <p>“He told us that we could pay him for every product that we sell. So, for instance, he</p>

		creative way of payments. He told us that we could pay him for every product that we sell. So, for instance, he makes enough food for 100 products, but if we only sell 70 products, we only have to pay him for these 70 products. This puts a lot of our risk on our cook (stakeholder). We have not discussed yet how much we have to pay per sold products. Indirectly this means that he has huge confidence in the concept and that he believes it will be a success. Otherwise, he wouldn't have come up with such a payment construction."	makes enough food for 100 products, but if we only sell 70 products, we only have to pay him for these 70 products. This puts a lot of our risk on our cook (stakeholder)."
	W	"We negotiated a little bit about how we are going to pay him for his services, and in order to minimum the risks, he proposed that he is willing to commit on the basis that we only have to pay him per sold menu."	"We negotiated a little bit about how we are going to pay him for his services, and in order to minimum the risks, he proposed that he is willing to commit on the basis that we only have to pay him per sold menu."
5	M	<p>"The stakeholder offered us discount on the products that are also in their webshop (so prices are lower than in webshop) and a delayed payment term (from 21 days to 30 days). I have the feeling this is just because he wants us as new lead, so that it is a standard procedure and not because we are young entrepreneurs. Although it might help us to make a good start with our venture."</p> <p>"It is hard to negotiate creative ways of investment and generating cash, and terms and conditions with a stakeholder. At least, it is hard to start this discussion. In that case I am too much waiting (wait-and-see) on the input of the stakeholder. This might be due to my restricted experience in this."</p>	<p>"The stakeholder offered us discount on the products that are also in their web shop (so prices are lower than in web shop) and a delayed payment term (from 21 days to 30 days)."</p> <p>"What the stakeholder did say was: <i>"Young entrepreneurship is always very nice and interesting, we should help them during their start-up."</i> So, in that sense I think that this potential stakeholder might be willing to help us as young entrepreneurs, although I didn't really feel it during the meeting."</p>
	W	<p>"We proposed to delay the payments terms up to 4 weeks. And he confirmed. In addition, we will get some reduction on the prices which they ask on their web shop."</p> <p>"The need to reduce cash needs and be creative in investments was also a thing you see more and more he told us."</p>	"We proposed to delay the payments terms up to 4 weeks. And he confirmed. In addition, we will get some reduction on the prices which they ask on their webshop."
6	M	<p>"This is not really necessary at this moment because we are only exploring the possibility of the locker systems."</p> <p>"Due to the fact that the stakeholder was not really keen on committing his company to our venture idea, we are sure that we cannot negotiate creative ways of investment with him. It really seemed that he wanted to help us with his ideas and inspiration, but that he didn't saw a role for his company in our venture development. He even mentioned some other companies who would be interesting for us."</p>	"This is not really necessary at this moment because we are only exploring the possibility of the locker systems."

		<p>“When we came up with the idea of using existing lockers and software, he said that that is the way to think as young entrepreneurs: <i>“So, just be creative considering the resources you need and just start small and experiment what works and what doesn’t. You’ve got nothing to lose!”</i></p> <p>“I think that this stakeholder agreed with us that we, as young entrepreneurs, have to be creative about the resources we need. When we told him that we are looking for slack resources, he was thrilled by this idea and it even seemed that we made him think.”</p>	<p>“When we came up with the idea of using existing lockers and software, he said that that is the way to think as young entrepreneurs: <i>“So, just be creative considering the resources you need and just start small and experiment what works and what doesn’t. When we told him that we are looking for slack resources, he was thrilled by this idea and it even seemed that we made him think.”</p>
	W	<p>“We discussed the use of slack resources which is a really creative way of decreasing the needed cash.”</p>	<p>“We discussed the use of slack resources which is a really creative way of decreasing the needed cash.”</p> <p>“Not the case during this meeting.”</p>
<b>KAPPA CYCLE 4 T/M 6 = 0,774</b>			
7	M	<p>“This stakeholder does not have to commit to us. Therefore, we have not considered creative ways of investment beforehand. During the meeting, we did discuss this topic in order to learn of his ideas and experience concerning creative ways of investment and generating cash.”</p> <p>Stakeholder 8: <i>“You don’t have to do everything yourself, make use of the things of others.”</i></p>	<p>“This stakeholder does not have to commit to us. Therefore, we have not considered creative ways of investment beforehand. During the meeting, we did discuss this topic in order to learn of his ideas and experience concerning creative ways of investment and generating cash.”</p>
	W	<p>“Since we don’t see him as a potential stakeholder, so we don’t have considered creative ways of investment. However, we want to ask him for help and support, and that will cost him some time, so we have to realize that it is obvious that he will help us for free.”</p>	<p>“Since we don’t see him as a potential stakeholder, so we don’t have considered creative ways of investment. However, we want to ask him for help and support, and that will cost him some time, so we have to realize that it is obvious that he will help us for free.”</p> <p>“Since the usefulness of thinking in target groups is decreased, he advised us to put effort in the beginning in company awareness/branding. So people know you. This has to be realized with creative tools and have to be cheap. Think in the way of publicity stunts which will result in free publicity in the news papers or social media, or let people try your products for free. Important here is that you have to calculate if it is worth doing and not too expensive.”</p>
8	M	<p>“This is not really a stakeholder who has to commit to us in the sense that he has a stake in the venture or that we have to buy/sell him something.”</p>	<p>“This is not really a stakeholder who has to commit to us in the sense that he has a stake in the venture or that we have to buy/sell him something.”</p>
	W	<p>“I see no opportunities for creative ways of investments and generating cash.”</p>	<p>“I see no opportunities for creative ways of investments and generating cash.”</p>

9	M	<p>“The stakeholder advised us to look further than the bank for creative ways of investment. For instance, he mentioned that family or acquaintances might be able to lend us money for a more attractive interest rate.”</p> <p>The stakeholders gave us feedback on our effectual business plan. The thing that he liked most about our plan is that we are creative concerning the things we really need. Stakeholder 11: <i>“For instance, you can decide to let an external party build the truck, these costs more than €100000. By doing this yourself and gaining all the knowledge that is necessary for it, you reduce this amount to €70000. That is a good way of thinking. What do you really need?”</i></p>	<p>“The stakeholder advised us to look further than the bank for creative ways of investment. For instance, he mentioned that family or acquaintances might be able to lend us money for a more attractive interest rate.”</p> <p>“The thing that he liked most about our plan is that we are creative concerning the things we really need. After one year, we have to consider alternative options.”</i></p> <p>“Moreover, he told us that we should already commit customers in order to create some security.”</p>

		we are not spending money on things that are not necessary. Especially because we are not in the position (young entrepreneurs) to spend much money, because we don't have own money, but have to lend it of others. We want to show others that we can manage the money issues."	<p>"The basis of the cooperation structure with this stakeholder is that we buy half fabricates of the stakeholder and that we have to pay him for the costs of the products, not for his own labor. In this partnership he is a supplier of us which saves a lot of money."</p> <p>"The stakeholder told us that we don't have to buy all the equipment new, we can make use of second hand equipment in order to reduce the start up costs."</p>
	W	"We will benefit from his network and businesses which will result in our first revenues."	"We will benefit from his network and businesses which will result in our first revenues."
11	M	<p>"Since the stakeholder has a good (trust) and professional relationship with the bank, he can lend money for less interest than we would have to pay. So, this is cheaper money. We can lend this money of him for the same interest rate that he has to pay."</p> <p>"The stakeholders are willing to help us with their financial resources, without really benefitting of it themselves. They just believe in the venture concept and want to help us during the start up of the venture. However, they do say continuously that we have to pay the money back per month over a period of six years. Also if the venture doesn't become successful we have to find a job in order to pay back all the money. So, it is not an investment of the stakeholders but a loan that has to be paid back in the future."</p>	"Since the stakeholder has a good (trust) and professional relationship with the bank, he can lend money for less interest than we would have to pay. So, this is cheaper money. We can lend this money of him for the same interest rate that he has to pay."
	W	<p>"Low percentage of interest since we can borrow money from the bank via family. They have other terms and conditions which is thousands of euro's cheaper. Percentage of interest 3 instead of 6 (for novice entrepreneurs), no additional fees (1%)."</p> <p>"This construction on its own is a creative way of investment. It saves us a lot of money concerning fixed costs."</p> <p>"This stakeholder pushed us to start already with making money. He would like to see that we already sell our products in the start up phase."</p>	<p>"Low percentage of interest since we can borrow money from the bank via family. They have other terms and conditions which is thousands of Euros cheaper. Percentage of interest 3 instead of 6 (for novice entrepreneurs), no additional fees (1%)."</p>

12	M	<p>“The stakeholder wants to work with us on the basis of a financial construction in which he has some risks. Since this is a totally new project for him, he was not sure how many hours he would be busy with the project. So, he will set a target price of the hours he works on the rebuilding. If he exceeds this amount of hours (money), he will not calculate that in the final costs. If the amount of hours is lower than the amount he has estimated beforehand, he also won’t calculate it. This seems like a nice construction in which we have little risk, while we do have a professional builder.”</p>	<p>“He will set a target price of the hours he works on the rebuilding. If he exceeds this amount of hours (money), he will not calculate that in the final costs. If the amount of hours is lower than the amount he has estimated beforehand, he also won’t calculate it. This seems like a nice construction in which we have little risk, while we do have a professional builder.”</p>
	W	<p>“At this moment we concentrating on looking what do we really need in order to reduce the needed cash and how can we purchase leftovers with a huge discount.”</p>	<p>“The creative part of this partnership is that we can put effort in finding the best deals. This to make sure that the builder of the truck is only doing what his profession is and is not doing things we can do as well. This in order to reduce his working hours that he will put invoice.”</p>
<b>KAPPA CYCLE 10 T/M 12 = 0,591</b>			
13	M	<p>“Especially in the phase in which the venture concept is quite concrete, it is useful to think of the needed resources in creative ways. I notice that people around me appreciate this mind-set and really see it as ‘entrepreneurial’.”</p> <p>“Moreover, this stakeholder wants to look at demo/showroom models or products that have some little damage. These models might be much cheaper than new products, while they are as good as new. This is an even more interesting option for us.”</p> <p>“We can buy the equipment for purchase value. Since this stakeholder is a mechanic in cool technique, he wants to do the maintenance for us. We are very pleased that he is willing to help us with such a construction. This really reduces the amount of cash that we need for the equipment.”</p>	<p>“Especially in the phase in which the venture concept is quite concrete, it is useful to think of the needed resources in creative ways. I notice that people around me appreciate this mind-set and really see it as ‘entrepreneurial’.”</p> <p>“Moreover, this stakeholder wants to look at demo/showroom models or products that have some little damage. These models might be much cheaper than new products, while they are as good as new. This is an even more interesting option for us.”</p>
	W	<p>“This person is willing to help us with buying all the kitchen equipment directly from the factory. This will save us thousands of Euros. He didn’t want to get a compensation for it. However, he is a maintenance mechanic and we need a person who can execute the needed service/maintenance for all the equipment. Therefore, he will also benefit from this partnership.”</p>	<p>“This person is willing to help us with buying all the kitchen equipment directly from the factory. This will save us thousands of Euros. He didn’t want to get a compensation for it. However, he is a maintenance mechanic and we need a person who can execute the needed service/maintenance for all the equipment. Therefore, he will also benefit from this partnership.”</p> <p>“Moreover, he has great network contacts to become aware where we can find great second hand equipment.”</p>

14	M	<p>“The stakeholder asked us if we were willing to buy the store as a percentage of the whole investment. So, that we buy the store and he the rest. We have told him that we can only participate in this project if we can rent the store/restaurant. So, in that case we are not open for another creative construction because we don’t have any money and we cannot afford to lose any since we have already bet on another course of action.”</p> <p>“I think that they are not really willing to help us as young entrepreneurs. They are just looking for stakeholders who are interested in the store. They like to have some certainty in this. We understand this because they don’t know us and they have already have to afford the risk of buying the whole property, so they want to calculate with a fixed rent price which gives them certainty.”</p>	<p>“The stakeholder asked us if we were willing to buy the store as a percentage of the whole investment. So, that we buy the store and he the rest. We have told him that we can only participate in this project if we can rent the store/restaurant. So, in that case we are not open for another creative construction because we don’t have any money and we cannot afford to lose any since we have already bet on another course of action.”</p> <p>“I think that they are not really willing to help us as young entrepreneurs. They like to have some certainty in this.”</p> <p>“We also explained that we are open for a construction in which the rent will be increased as our sales turn up to be very good. So, that we pay rent as a percentage of the sales. They are not open for that because they rather see a fixed rent price.”</p>
	W	<p>“We asked him to share the risks of the store. For instance, to invest in our food store and to receive a percentage of the turnover. However, he was an oil business men and not a hospitality person. He was only considering the option to raise the monthly rent in order to overcome the exterior investment of the property. In our eyes is that an interesting option since it reduces our investment requirements.”</p>	<p>“We asked him to share the risks of the store. For instance, to invest in our food store and to receive a percentage of the turnover. However, he was an oil business men and not a hospitality person. He was only considering the option to raise the monthly rent in order to overcome the exterior investment of the property. In our eyes is that an interesting option since it reduces our investment requirements.”</p>
15	M	<p>“What is important in this cycle is that we don’t have brand awareness and don’t have many network contacts through which we can acquire enough requests during the first period of business. In order to build this, we believe in cooperation with established catering suppliers who hire us and the Food Truck. So, we can see them as pre-committed customer. So, if we can commit those customers we expand our means and work on brand and service awareness.”</p> <p>“This stakeholder might be a customer of us who rents the Food Truck once in a while for his own catering services. We see it as a creative way to generate some cash and to establish our ‘brand’. In that case, this stakeholder can be seen as a pre-committed customer.”</p> <p>“We are investigating the possibility to pre-commit or pre-sell the Food Truck to some catering activities of restaurant owners we already know. This in order to</p>	<p>“We are new so it is hard to gain awareness by ourselves. So, we believe that these partnerships will increase our brand awareness and will secure ourselves of some work, which might even cover the fixed costs in the first year. If we notice that people are especially asking for us, we might be able to do all the catering activities and acquisition ourselves. However, especially for the beginning we believe in partnerships with these type of customers; restaurant owners who hire us for their catering purposes.”</p> <p>“This stakeholder might be a customer of us who rents the Food Truck once in a while for his own catering services. For us it is interesting to commit to such a cooperation structure because it brings us some certainty, in order to keep the Food Truck busy. Especially in the first year it might be hard for us to gain enough awareness and interest in our product (also because we haven’t proven ourselves yet), so it would be an opportunity to work on that in this way. So, we see it as a creative way to generate some cash and to establish our ‘brand’. In that case, this stakeholder can be seen as a pre-committed customer.”</p>

		generate a certain degree of income from the network and established 'brand' that these people have."	
	W	<p>"Pre-sell products and services to reduce risks and to generate immediately some revenues at the start of the company."</p> <p>"This is a creative way of generating cash. Before we finished the food truck we already have some customers who are willing to rent our truck for their catering services. This is an interesting happening which can be showed to our investors."</p>	<p>"Pre-sell products and services to reduce risks and to generate immediately some revenues at the start of the company. In addition, we would like to benefit from his network of clients. Hopefully those clients will also be interested in our product."</p> <p>"This is a creative way of generating cash. Before we finished the food truck we already have some customers who are willing to rent our truck for their catering services. This is an interesting happening which can be showed to our investors."</p>

## CHANGES IN THE ENVIRONMENT: LEVERAGING CONTINGENCIES

### HEURISTIC 12: IMPROVE THE CHANCES THAT LEVERABLE CONTINGENCIES HAPPEN TO YOU

Cycle	Entrepreneur	Coding of researcher 1	Coding of researcher 2
1	M	<p>“We have been open towards the people in our environment by saying that we are planning to start a venture. By explaining our idea broadly, we noticed that people responded with interesting suggestions, ideas and contacts in order to develop the venture concept.”</p> <p>“Before the meeting with the first stakeholder, we have been searching on the internet a lot for nice and promising concepts that we get inspiration from. Moreover, we have visited (foreign) city markets/restaurants/stores in order to get inspired and to come across interesting ideas and concepts.”</p>	<p>“We have been open towards the people in our environment by saying that we are planning to start a venture. By explaining our idea broadly, we noticed that people respond with interesting suggestions, ideas and contacts (network) in order to develop the venture concept.”</p>
	W	<p>“Besides this meeting we have already spoken with people we know in order to tell them our idea. We did this to improve the chances that contingencies come across. In our case, people proposed companies, persons who have kind of resources they think would be interesting for us.”</p>	<p>“Besides this meeting we have already spoken with people we know in order to tell them our idea. We did this to improve the chances that contingencies come across. In our case, people proposed companies, persons who have kind of resources they think would be interesting for us.”</p>
2	M	<p>“We are not deliberately planning to go to network meetings etc. However, we do try to be part of meetings in which our own network is present.”</p> <p>Stakeholder 2: <i>“Entrepreneurs have to increase the chance to find a ‘gap’ in the market, not only to increase the chance of contingencies is important.”</i></p> <p>“We have not engaged in deliberate network behaviors. The contingencies are mostly new contacts that we come across through our own network and those of our (potential) stakeholders.”</p> <p>“I am always open towards the input of others and I try to use that in the development of the venture concept.”</p>	<p>“We are not deliberately planning to go to network meetings etc. However, we do try to be part of meetings in which our own network is present.”</p> <p>Stakeholder 2: <i>“Entrepreneurs have to increase the chance to find a ‘gap’ in the market, not only to increase the chance of contingencies is important.”</i></p>
	W	<p>“During the meeting we told him that every time we speak with somebody, we ask them if they know people who can help us developing our idea. By telling our strategy, he also tried to think in that way and he came with other people within his network.”</p>	<p>“During the meeting we told him that every time we speak with somebody, we ask them if they know people who can help us developing our idea. By telling our strategy, he also tried to think in that way and he came with other people within his network.”</p>

3	M	“We have not engaged in network behaviors during events. We do this during a meeting with a central person of the slow food organization, the third stakeholder. This helps because it is personal contact and during the nice meeting we noticed that such a meeting (instead of network meetings with more people) is very productive/effective since we can make use of the network of a stakeholder, instead of making a network ourselves.”	“We have not engaged in network behaviors during events. We do this during a meeting with a central person of the slow food organization, the third stakeholder. This helps because it is personal contact and during the nice meeting we noticed that such a meeting (instead of network meetings with more people) is very productive/effective since we can make use of the network of a stakeholder, instead of making a network ourselves.”
	W	“This whole meeting with someone who is representing an organization that is looking after the interests of slow food is something that increases the chance to come across contingencies. At this moment it resulted in one new contact, but also the opportunity to make use of the network of the organization.”	“This whole meeting with someone who is representing an organization that is looking after the interests of slow food is something that increases the chance to come across contingencies. At this moment it resulted in one new contact, but also the opportunity to make use of the network of the organization.”
<b>KAPPA CYCLE 1 T/M 3 = 0,819</b>			
4	M	“Some days before the meeting with this stakeholder, we watched a program on television about a hotel that did not have a cook, but did want to offer healthy meals in their restaurant. What they did to reach this was ordering pre-cooked menus at the local caterer, which only needed some heating and final touch and were then finished off by someone who wasn’t a cook, but could manage this. So, this system does not require a cook, which makes it much cheaper. This is a contingency we would like to exploit in our venture concept.”	“Some days before the meeting with this stakeholder, we watched a program on television (Herman den Blijker) about a hotel that did not have a cook, but did want to offer healthy meals in their restaurant. What they did to reach this was ordering pre-cooked menus at the local caterer, which only needed some heating and final touch and were then finished off by someone who wasn’t a cook, but could manage this. So, this system does not require a cook, which makes it much cheaper. This is a contingency we would like to exploit in our venture concept.”
	W	<p>“We worked for the stakeholder during a culinary event in the city of his restaurant. During this event a lot of his customers and network contacts came by, so being there improved the chances that we came across contingencies. For instance, the stakeholder let us meet new persons who might be willing to commit resources in the future.”</p> <p>“We follow the news extensively and we noticed that topics like slow food, animal welfare, and healthy food concepts are booming. This is probably a reaction on the more and more information that comes available about the ‘unhealthy food’ of the fast food companies. We are open for this information and see it as an opportunity for taking action. Therefore, we include all these trends and information as much as possible in our underpinning of the venture concept.”</p>	<p>“We worked for the stakeholder during a culinary event in the city of his restaurant. This helps people to be open about their ideas and suggestions.”	“We always tell people that we are flexible and willing to put our energy in everything that is interesting in our eyes. This helps people to be open about their ideas and suggestions.”

		“The meeting with this stakeholder came as a sort surprise. Our family contact, who is a bank employee, proposed to arrange a meeting with a colleague of him. This colleague was interested in our venture concept and we met him on a very short notice. He gave us much input and advice which really contributes.”	
	W	-	“We haven’t used different or new actions to come across contingencies.”
<b>KAPPA CYCLE 7 T/M 9 = 0,798</b>			
10	M	-	-
	W	“No new strategies about how to improve the chances to come across contingencies are executed.”	“No new strategies about how to improve the chances to come across contingencies are executed.”
11	M	-	“During this cycle we have not tried to improve chances to come across contingencies.”
	W	-	-
12	M	“We are always looking on the internet for the latest trends and developments in the culinary and gastronomy industry. We are open for new insights and experiences in order to develop our venture concept in such a way that it is based on the latest insights and opportunities.”	“We are always looking on the internet for the latest trends and developments in the culinary and gastronomy industry. We are open for new insights and experiences in order to develop our venture concept in such a way that it is based on the latest insights and opportunities.”
	W	-	“We used the same methods as before.”
<b>KAPPA CYCLE 10 T/M 12 = 0,666</b>			
13	M	“We notice that everybody has some ideas, contacts and experiences that he/she wants to share with us. So, interacting with people seems to contribute highly to the process of new venture creation.”	“We notice that everybody has some ideas, contacts and experiences that he/she wants to share with us. So, interacting with people seems to contribute highly to the process of new venture creation.”  “By being open, we noticed that people in our environment come up with good suggestions and ideas that we can use in the further development. Also this network contact was introduced after talking to family about our plans.”
	W	-	“We used the same strategies to come across contingencies. No new contingencies came across.”
14	M	“The news (papers, TV, internet) continuously confirms our ideas about the trends that are underlying our venture concept.”	-
	W	-	“Same as we did before, news + internet+ industry papers.”
15	M	“They exactly told us on what basis they cooperate with these other mobile catering companies. This was a surprise for us and it made us think and conclude that our venture concept is also a good addition on their current services. We hadn’t thought about this before and we certainly didn’t expect the openness about all of this during the open day. So, we were really glad that we went there.”	“They exactly told us on what basis they cooperate with these other mobile catering companies. 5	M	<p>“I really saw it as an opportunity and thought that we were suitable, considering our means, to take this opportunity. It really fitted with us and it felt good to find out if we could anticipate on this contingency.”</p> <p>“We were open about our venture idea and the ideas we have. We always say that we are not blinded by other opportunities and that our ideas are flexible concerning the input of others (stakeholders) and the changing environment and contingencies that we come across.”</p> <p>“So, I was open to contingencies and saw it as an opportunity that I wanted to find out more about. I can keep dreaming about things, and how it could have been, but by taking action and finding out some more about it, I immediately know if it is realizable and whether I want to take the opportunity or not. If not, I move on with the other venture concept, which was the case this time. It really felt good to investigate some more about this opportunity. That really triggered my ‘entrepreneurial’ mind-set and I could notice that my nearest contacts in my network were really surprised that I just dared to investigate the option. After this observation that this ‘contingency’ will not work out, I am not sad and I didn’t lose anything, but I am glad that I tried to look at it as an opportunity and learned that I have to keep every option open and should not say ‘no’ beforehand, but should really consider contingencies as opportunities.”</p> <p>“We have put effort in finding out if this contingency was really an opportunity that we should take.”</p>	<p>“I really saw it as an opportunity and thought that we were suitable, considering our means, to take this opportunity. It really fitted with us and it felt good to find out if we could anticipate on this contingency.”</p> <p>“We were open about our venture idea and the ideas we have. We always say that we are not blinded by other opportunities and that our ideas are flexible concerning the input of others (stakeholders) and the changing environment and contingencies that we come across.”</p>
	W	<p>“Between these meetings with one stakeholder we come across one contingency. Marleen received a business card from people who have a hotel and they are searching for people who are interested to run that place. We see it as an opportunity because that could also be a place where we can exploit our entrepreneurial ambitious. However, after some calls with locals we know, we acknowledged that these people are a little weird and trustless. So we went further with our current project.”</p> <p>“It shows that we are interested in more things than starting in the food industry, we</p>	<p>“Between these meetings with one stakeholder we come across one contingency. <b>KAPPA CYCLE 1 T/M 3 = 0,791</b>			
4	M	<p>“Some days before the meeting with this stakeholder, we watched a program on television (Herman den Blijker) about a hotel that did not have a cook, but did want to offer healthy meals in their restaurant. What they did to reach this was..... much cheaper. In fact, his is also what we will do, so it was a coincidence and at the same time a confirmation that it is possible and that the food will still be of high quality when you make it with this system of producing and finishing off. We have added the contingency (caterer possibilities) in our ‘story’ as underpinning of our venture concept. We can use it as example within the communication towards others in order to convince them that this is a good possibility.”</p>	<p>“We have added the contingency (caterer possibilities) in our ‘story’ as underpinning of our venture concept. We can use it as example within the communication towards others in order to convince them that this is a good possibility.”</p>

		<p>“He also commented that one of the ideas of the previous stakeholder (distribution via petrol stakeholders) will not be feasible at the start because those petrol stations manage high rent prices for part of their shop. We are not willing to give away our margin to the petrol stations, so we have to figure out another interesting way of distribution.”</p>	
	W	<p>“Apparently, more and more people are interested in healthy food and its origin. We have to make that transparent, that is an opportunity for us.”</p>	<p>“Apparently, more and more people are interested in healthy food and its origin. We have to make that transparent, that is an opportunity for us.”</p>
5	M	<p>“During the process, we noticed that Slow Food and healthy food concepts were a lot in the news (newspapers, television, internet etc.). We have included this rise of Slow Food publicity as a trend in our effectual business plan and use it to underpin our ‘story’. We have already used it in this cycle and it seemed that the stakeholder was familiar with this development and that he recognized it. I think that made it easier for us to convince him about the opportunity we saw in the take-away branch.”</p> <p>“We found out that not everything that we want (concerning packaging) is available yet. So, we have to make concessions regarding packaging. This means that we cannot execute our ‘packaging goals’ as we hoped to do and have to change them to different standards. This is proving that a (potential) stakeholder brings in his knowledge and with that sets constraints on the initial goals.”</p> <p>“We have immediately taken action considering this opportunity and called someone we know from the local government of Winterswijk (an aunt of Wouter) in order to find out more about this property. They gave us the remark that the owners of the property are not really beloved in Winterswijk. Our contact in the local government advised us not to do it since the owners are not very trustful.”</p> <p>“During this cycle, the first big contingency came across. I really saw it as an opportunity and wanted to find out more about it. It really felt good to find out if I could incorporate this contingency in the venture creation process and if I could anticipate on it. Without taking action, you will always keep this in the back of your head and will ask yourself the question ‘what if...’ Now I know the options and can move on.”</p> <p>“We got the offer to take over a hotel on a very nice estate in Winterswijk. It was a really nice property and we were seriously thinking about its possibilities. We have been working on this idea for a week and let the current venture concept rest during that week. I was already thinking very concrete about this opportunity and the way that the venture concept could also fit in it partly.”</p> <p>“Since this opportunity didn’t work out in the way it could, we have deleted the idea</p>	<p>“We have included this rise of Slow Food publicity as a trend in our effectual business plan and use it to underpin our ‘story’. However, after some calls with locals we know, we acknowledged that these people are a little weird and trustless. So we went further with our current project.”</p> <p>“It shows that we interested in more things than starting in the food industry, we also are open for these ‘contingencies’ as long as it is entrepreneurial.”</p>
6	M	<p>“We are flexible towards the ideas of our stakeholders and are always thinking what would be of added value for our venture concept. So, for instance within this meeting, we came up with using existing lockers who are not 100% occupied. Since our stakeholder was very positive about that, we will try to incorporate this opportunity in the venture creation process.”</p> <p>“We have incorporated the good ideas that came forward of the meeting in our means, goals and strategy. Everything that seems of added value for us will be considered in the effectual business plan.”</p>	<p>“We came up with using existing lockers who are not 100% occupied. Since our stakeholder was very positive about that, we will try to incorporate this opportunity in the venture creation process.”</p>

<b>KAPPA CYCLE 4 T/M 6 = 0,759</b>			
7	M	<p>“We will be flexible towards these suggestions because we really value the opinion of this stakeholder. He is an experienced entrepreneur who likes to ‘teach’ us how we have to act, and I really appreciate his input. I truly think that these are the feedback moments that we have to cherish and use in the further development of the venture concept. So, I will definitely use those comments in our development.”</p>	<p>“I truly think that these are the feedback moments that we have to cherish and use in the further development of the venture concept. So, I will definitely use those comments in our development.”</p>

		<p>“We will incorporate all the knowledge and suggestions of the stakeholder in our means and will consider them in our goals, strategy and actions.”</p>	<p>“We will incorporate all the knowledge and suggestions of the stakeholder in our means and will consider them in our goals, strategy and actions.”</p>
	W	<p>“We talked a lot about what our product has to offer, where to find your customer and how to keep them a customer. I was thinking about it and I came with the idea to investigate the opportunity to develop a meal for people who are going directly to the gym after they have worked. This is combination with exclusive customized food which includes the necessary ingredients per person. This could be developed with a friend of mine who is specialized in healthy food and so on. Probably this is also a kind of way to sell products.”</p> <p>“The information and advises and experiences of the stakeholder will be added to our means.”</p>	<p>“We talked a lot about what our product has to offer, where to find your customer and how to keep them a customer. This is combination with exclusive customized food which includes the necessary ingredients per person. This could be developed with a friend of mine who is specialized in healthy food and so on. Probably this is also a kind of way to sell products.”</p> <p>“There were not really contingencies that we can incorporate in our means, goals and strategy. The information and advises and experiences of the stakeholder will be added to our means.”</p>
8	M	<p>“Right after the meeting with this stakeholder we ran into the sister of Wouter who was joining a wine with some friends on the terrace. We talked a while about our meeting with the stakeholder when one of her friends told us that she has also been interested in the same properties that we are interested in. In the past, she tried to find out the same information as we are looking for now. She has her own company now, without having the desire to start something similar as us, so she is not competition.”</p> <p>“She can be seen as the next stakeholder since she has got information about the properties that we are interested in. She also gave us the tip that there was another property (with centre destination, so hospitality) which is located very central in the neighbourhood. This property is currently an anti-cracking building. The only difficulty is that the owner is difficult to trace. She will look for this information for us.”</p> <p>“Another thing that she has is information about Neighbourfood, the venture concept that we call our initial idea that we want to exploit. She has numbers about turnover etc. It would be really nice to take a look into these figures, in order to have an idea what we can expect and in order to become more concrete and to be able to convince others with real data, no estimations. After all, those figures are of a similar venture concept and thus quite realistic for us to reach as well. She told us that we could contact her for this information. The day after, we emailed her and she send us the information. It really surprised me how easy it was to get this information. Just meet the right persons and you get insight in many valuable things.”</p>	<p>“Right after the meeting with this stakeholder we ran into the sister of Wouter who was joining a wine with some friends on the terrace. This could be very useful to underpin our concept financially.”</p>
9	M	<p>“After a month, we got a call of the broker. An investor was interested in the petrol station and the apartments, and he was looking for someone to rent the store. Although, we already decided to focus on the Food Truck, we are still interesting in other options.”</p> <p>“We have kept the option open of renting the store. So, we have incorporated this contingency in the venture creation process.”</p>	<p>“After a month, we got a call of the broker. An investor was interested in the petrol station and the apartments, and he was looking for someone to rent the store. Although, we already decided to focus on the Food Truck, we are still interesting in other options. He asked what we were willing to pay for rent. We explained that we are young entrepreneurs and that the potential of store has not been tested yet, so that we cannot afford more than €1000 p/month for this option. He was understanding and would consider this with the investor. He did remark that the negotiations with the investor were still in an early stage, so that it is not sure yet if he will really buy the property.”</p> <p>“The day before the meeting we got a call of the broker who had helped us before with the property that we were interested in. At that point in time, the property was way too expensive for us. We were only interesting in the store while the owner was only willing to sell the whole property in once. The broker knew about our situation</p>

			and we told him that we were only interesting in the property if an investor would buy the whole property and we could rent the store.”
	W	<p>“During this cycle we were called by the house broker. He told us that there is a chance that an unfeasible option (too expensive) can be feasible again since a business men is interested in buying property were we also were interested in, but only in the first two layers of the building where a store situated now. So where an option in de past was not feasible and can become feasible again, since new contingences come across.”</p> <p>“Since the broker has called us, we have incorporated this contingency again in our goals; investigate the option to start a store.”</p>	<p>“Where an option in de past was not feasible and can become feasible again, since new contingences come across”.</p> <p>“Since the broker has called us, we have incorporated this contingency again in our goals; investigate the option to start a store”.</p>
<b>KAPPA CYCLE 7 T/M 9 = 0,895</b>			
10	M	<p>“During the process, there were no real big contingencies that had influence on our plans. We only have some more knowledge (what I know) and a network contact (who I know) that are added to our means. The goals are quite formed by now.”</p> <p>“It seems that contingencies have more influence on the venture creation process during the early phase, because then you are still open and flexible to changes that are beneficiary for the venture. At the time we didn’t had an exact venture idea yet, we were more open for options and opportunities. However, also later in the process, you can open for contingencies, but these are more focusing on the venture concept that you have chosen for. ”</p>	<p>“During the process, there were no real big contingencies that had influence on our plans. However, also later in the process, you can open for contingencies, but these are more focusing on the venture concept that you have chosen for. ”</p>
	W	-	“During the process no new contingencies occurred.”
11	M	-	-
	W	-	-
12	M	<p>“Although our broader concept is clear now, we are still flexible concerning the exact interpretation. This is dependent on all the information and ideas that we keep gathering. We are not the only ones with good ideas, so we are also flexible towards the good ideas of others.”</p>	<p>“Although our broader concept is clear now, we are still flexible concerning the exact interpretation. This is dependent on all the information and ideas that we keep gathering. We are not the only ones with good ideas, so we are also flexible towards the good ideas of others.”</p> <p>“Within this period of the process, we notice that the ‘Food Truck’ is more and more in the news. It seems to be a trend that is getting bigger in the Netherlands”.</p> <p>“During the meeting with this stakeholder, we noticed that this person knows a lot of other persons who can help us with small aspects of the Food Truck”.</p>

	W	<p>“There was a food truck protest in the city center of Amsterdam. They were protesting against the old fashion laws for selling street food. So it seems that besides the US, Holland is picking up the trends of the food trucks as well.”</p>	<p>“There was a food truck protest in the city center of Amsterdam. They were protesting against the old fashion laws for selling street food. So it seems that besides the US, Holland is picking up the trends of the food trucks as well.”</p> <p>“We will contact those people in order to get the information about what the local government is doing to solve the problem. After receiving this information we can use this in our own situation and environment.”</p>
<b>KAPPA CYCLE 10 T/M 12 = 0,664</b>			
13	M	<p>“We have incorporated the contingency in our means, goals and strategy. However, this is not on the level that the goals and strategy can completely chance. This is more concerning the practical interpretation of the course of action that we choose for.”</p> <p>“So, it seems that after we made the decision for the imagined end (choice), the contingencies that we come across have influence on a more practical level. During the phase of idea generation (start of effectual process), contingencies have influence on the amount and type of ideas that we came up with, while we think that the contingencies that we see are now more practical and focusing on the opportunities and possibilities for the Food Truck itself.”</p>	<p>“We have incorporated the contingency in our means, goals and strategy. However, this is not on the level that the goals and strategy can completely chance. This is more concerning the practical interpretation of the course of action that we choose for.”</p> <p>“So, it seems that after we made the decision for the imagined end (choice), the contingencies that we come across have influence on a more practical level. During the phase of idea generation (start of effectual process), contingencies have influence on the amount and type of ideas that we came up with, while we think that the contingencies that we see are now more practical and focusing on the opportunities and possibilities for the Food Truck itself”.</p>
	W	<p>“The meeting with this stakeholder was also a kind of contingency. We were busy with doing research where to buy all the kitchen equipment and we got a tip that someone in the family is having company in this business. His advice and network changed our perception about the products and indirectly influenced us in our decision making.”</p>	<p>“The meeting with this stakeholder was also a kind of contingency. We were busy with doing research where to buy all the kitchen equipment and we got a tip that someone in the family is having company in this business. His advice and network changed our perception about the products and indirectly influenced us in our decision making.”</p>
14	M	<p>“The second idea should not negatively influence the primary venture idea, so that is a restriction that we have for the second venture idea. As long as that is not the case, we are open to exploit this contingency, and to incorporate the new means and resources in the venture creation process.”</p> <p>“One of the opportunities is that the investor has many self-service fuel stations and is planning to open a lot more. So, in the future there might be opportunities for a partnership in which we run more stores of them.”</p>	<p>“The second idea should not negatively influence the primary venture idea, so that is a restriction that we have for the second venture idea. As long as that is not the case, we are open to exploit this contingency, and to incorporate the new means and resources in the venture creation process.”</p>
	W	<p>“We want to investigate the chosen course of action; the food truck. However, the broker found an investor for a property and this third party can become an interesting contingency for us. They are selling oil and have shops as well, so we can find each other in complementary services, oil and food in shops.”</p> <p>“We received a tip from someone out of our network that another property was perhaps also available for starting a business in. We investigated the opportunity but it was already approached by another group of entrepreneurs.”</p>	<p>“We want to investigate the chosen course of action; the food truck. However, the broker found an investor for a property and this third party can become an interesting contingency for us. We investigated the opportunity but it was already approached by another group of entrepreneurs.”</p>

			<p>“More and more we get confirmations via different media sources that the trends which we used to build our concept on are the right one. However, we also noticed that there are many articles written in the papers about the highness of good healthy food. Customers will more and more buy their food as cheap as possible since there is a crisis going on at the moment. This results in a low level of loyalty.”</p>
15	M	<p>“We have incorporated this contingency in our means, goals and strategy. We are more and more thinking about cooperating with such companies in order to make use of their network contacts, their event catering knowledge, and the established customers and to have an entrance in the larger event catering. We can be of added value for them because we offer a different product and thus can build some variety in their offerings.”</p>	<p>“During the process, we found out that a large mobile catering and event service company is not going to invest in ‘healthy food trailers’, but is interested in cooperating with other companies who do offer these distinctive and fresh food products.”</p>
	W	-	<p>“We talked with an employee of the company and he told us that they are working with partners who are complementary to their services in order to offer a total service package. So there is a huge opportunity for us to get in touch with the owner to company and to realize a partnership whereby he will use us for his big catering orders. Via him we have the opportunity to learn from a large company and roll into the catering business”.</p>
