

ERRATA SHEET

Date: August 23rd, 2021

Reference: Annex 4 ‘Data Management Plan (DMP) summary’ – Page 65 – Year column – First two rows

This erratum describes the deviations from the MSc Thesis document from Lorraine Trento Oliveira (s2267934).

For the Landsat imagery, the year 2013 refer to the first release date and for the Sentinel-2A is supposed to be the 2015 also referring to the release date, but there was also a misspelling error (written 2014). The correct date is 2020 for both datasets which refer to their the acquisition year for the present MSc thesis.

Data	Specification	Year
Landsat-8 imagery (BOA reflectance)	Band: Panchromatic / Resolution: 15m Cloud coverage:0.4%	2013
Sentinel-2A imagery (BOA reflectance)	Bands: 2, 3,4,5,6,7,11,12 / Resolution: 10m Cloud coverage:1.2:%	2014
WorldPop Constrained Population Count layer	Resolution: 3 arc-second UN adjusted /Projection-based estimates	2020
WorldPop resampled VIIRS night-time lights layer	Resolution: 3 arc-second Resampled from 15-arc second	2016
World Settlement Footprint (WSF) layer	Resolution: 10m Derived from Sentinel-1 radar and Landsat-8	2015
Humanitarian OpenStreetMap Team (HOTOSM) layers	Shapefile (point)	2020
OpenStreetMap (OSM) layers	Shapefile (point and line)	2020
ASTER Global Digital Elevation Model (GDEM)	Resolution: 30m stereo-pair images	2019
World Database on Protected Areas (WDPA) layer	Shapefile (polygon)	2020
Brazilian census – AGSN layer	Shapefile	2019
Brazilian census data	Shapefile and tabular formats	2010
Land use layer	Shapefile	2016
